IMPACT Silver Corp. ("IMPACT") announces that due to a lack of capacity at one of the smelters, that the smelter would not be accepting the lead-silver concentrate for approximately 30 days from IMPACT's operations at Zacualpan. The 500-tpd (tonnes-per-day) Guadalupe Plant continues to ramp up production and will continue to operate at near capacity. During this period, the delayed concentrate will be stockpiled for sales later this year. This will likely have the effect of shifting a portion of third quarter revenues from concentrate sales to the fourth quarter of 2011.

IMPACT Silver Corp. is a silver focused mining and exploration company operating in Mexico with a producing silver operation at the 423-square-kilometer Royal Mines of Zacualpan Silver District, the 200-square-kilometer advanced Mamatla Silver District including the Capire Mine Development Project, and an option agreement for a major share position in Defiance Silver Corp. in return for IMPACT's 200tpd mill and mineral concessions in the Zacatecas Silver District.

On behalf of IMPACT Silver Corp.,

"Frederick W. Davidson"

President & CEO
