

Cayden Commences Drilling at the Las Calles Target on the Morelos Sur Gold Property and Provides Project Update

09.11.2011 | [Marketwired](#)

VANCOUVER, BRITISH COLUMBIA -- ([Marketwire](#) - Nov. 9, 2011) - **Cayden Resources Inc.** (TSX VENTURE: CYD) ("Cayden" or the "Company") is pleased to announce that it has commenced drilling at the Las Calles target on its wholly owned Morelos Sur Gold Property in Guerrero, Mexico. The Las Calles target represents a significant opportunity for Cayden to drill in close proximity to Goldcorp's nearby Los Filos and El Bermejal open pit mines. Cayden believes the Las Calles target has significant potential to host gold mineralization based both on its geological setting and some historical drilling completed by Grupo Mexico in 2004. The Las Calles target represents an area 600 meters wide by 1400 meters long and the initial program will consist of approximately 17 holes at various depths ranging from 200 meters to 400 meters.

Cayden has also received results from its La Joya target where it recently discovered a 134 meter trench averaging 0.72 g/t Au (including 44 meters of 0.91 g/t Au), which is open in both directions. The Company plans additional trenching in the area to follow-up on these results.

Cayden's CEO, Ivan Bebek, commented on these developments: "Cayden is very excited to finally begin drilling its advanced stage Las Calles target and for the recent surface results at its La Joya target. Cayden believes there is an excellent opportunity for a discovery on multiple targets at the Morelos Sur Gold Property."

On Behalf of the Board,

Ivan Bebek
President and CEO

Qualified Person

Ben Gelber, P. Geo., is the Qualified Person with respect to NI 43-101 at the Morelos Sur Gold project.

About Cayden Resources

Cayden is a junior mining company focused on delivering shareholder value through the acquisition, exploration and development of precious metal projects located throughout the Americas.
