

GoldQuest Mining Corp. Completes Sale of the Toral and Lago Zinc and Lead Properties in Spain

30.04.2012 | [Marketwire](#)

VANCOUVER, BRITISH COLUMBIA -- ([Marketwire](#) - April 30, 2012) - [GoldQuest Mining Corp.](#) ("GoldQuest" or the "Company") (TSX VENTURE:GQC) (FRANKFURT:M1W) (BERLIN:M1W) is pleased to announce that it has completed the sale of its Toral and Lago polymetallic exploration properties in North West Spain to Portex Minerals Inc. ("Portex") (CNSX:PAX). Goldquest now owns 35% of Portex and is their largest shareholder.

Portex holds Toral, and also the Lagoa Salgada in Portugal, both of which have recently completed NI 43-101 resource calculations (see table below), positioning Portex as a significant base metals exploration and development company in SW Europe. GoldQuest believes that this approach to its Spanish base metal portfolio is in the best interests of its shareholders as Portex will develop its first class assets at no cash cost to GoldQuest.

Portex Shareholders approved the deal at the annual and special meeting of the shareholders held on March 22, 2012, and has issued 15,151,273 common shares to GoldQuest in consideration for the purchase of the entities which own the exploration licenses for the Toral and Lago properties. Portex and GoldQuest have entered into a shareholder's agreement with respect to the GoldQuest shares.

"We are pleased that Portex will continue to develop their Spanish and Portuguese projects, and we believe that greater value will accrue to GoldQuest's shareholders through this strategic investment in a dedicated, European base metal company," said GoldQuest CEO, Julio Espailat. "Goldquest's primary focus remains in the gold sector, particularly in the Dominican Republic."
