About Soltera Mining

Soltera Mining Corp. is an exploration company that is concentrating on the major El Torno gold project in northern Argentina. El Torno is a 78 km² area that has potential for world-class gold deposits of two types; vein gold in a very large quartz vein system that extends intermittently north-south for 14 km and has been worked underground in the past, and dispersed gold in suites of small veins and stockworks that are separate from the main system and appear to be major open-pit targets.
