

Metals Creek Stakes Ground Adjacent to Zenyatta's Hydrothermal Graphite Discovery

05.09.2013 | [The Newswire](#)

Toronto, Ontario. 05 September, 2013. [Metals Creek Resources Corp.](#) (TSX-V: MEK) is pleased to announce that the Corporation has staked 24 claim units in 2 claims tied onto the north western portion of [Zenyatta Ventures Ltd.](#)'s new hydrothermal graphite discovery. This new discovery by Zenyatta Ventures, which recently discovered vein-type graphite (hydrothermal) mineralization while testing electromagnetic (EM) targets describes this project as the largest and only new Magmatic Hydrothermal (vein type) Graphite Deposit being developed in the world (Sri Lankan style). Mineralization occurs within a graphite breccia (hydrothermal) with a granitic matrix. Metals Creek staked the ground based on a search and evaluation of historical data in the region which showed that Magnetic Lows exist on the property. To the best of management's knowledge, there is no historical EM data available for the area.

Michael MacIsaac, P. Geo, VP Exploration for the Corporation and a qualified person as defined in National Instrument 43-101, is responsible for this release, and supervised the preparation of the information forming the basis for this release.

About Metals Creek Resources Corp.

[Metals Creek Resources Corp.](#) is a well funded junior exploration company incorporated under the laws of the Province of Ontario, is a reporting issuer in Alberta, British Columbia and Ontario, and has its common shares listed for trading on the Exchange under the symbol "MEK". Metals Creek has earned a 50% interest in the Ogden Gold Property, including the former Naybob Gold mine, located 6 km south of Timmins, Ontario and has a 8 km strike length of the prolific Porcupine-Destor Fault (P-DF) that stretches between Timmins, Ontario and Val d'Or, Quebec. The Corporation is also engaged in the identification, acquisition, exploration and development of other mineral resource properties, and presently has mining interests in Ontario, Yukon and Newfoundland and Labrador. Additional information concerning the Corporation is contained in documents filed by the Corporation with securities regulators, available under its profile at www.sedar.com

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
