VANCOUVER, BRITISH COLUMBIA--(Marketwired - Mar 31, 2014) - [Skyharbour Resources Ltd. \(TSX VENTURE:SYH\)](#) (PINKSHEETS:SYHBF) (FRANKFURT:SC1N) (the "Company") ("Skyharbour") announces that further to its news releases dated March 7, 2014 and March 18, 2014, it has closed its non-brokered private placement and has issued a total of 4,862,294 units (the "Units") at a price of \$0.15 per Unit to raise gross proceeds of \$729,344. Each Unit consists of one common share in the capital of the Company ("Unit Shares") and one-half of one non-transferable common share purchase warrant (a "Warrant"), each whole Warrant entitling the holder to purchase one additional common share at a price of \$0.20 per share until April 1, 2016.

In connection with the financing, the Company issued a total of 164,918 finder's warrants to finders (the "Finder's Warrants") who introduced certain subscribers to the private placement. The Finder's Warrants are on the same terms as the Warrants. The Company also paid to finders a cash total of \$24,737.65 in connection with this financing. The Unit Shares and Warrants issued under the private placement and any shares issued pursuant to the exercise of the Warrants and Finder's Warrants are subject to a four month and one day hold period until August 2, 2014 under applicable securities laws and imposed by the TSX Venture Exchange.

Skyharbour also announces that 1,814,200 warrants have been exercised since the beginning of February raising an additional \$181,420 in net proceeds.

The Company intends to utilize the proceeds of this private placement and warrant exercise for the continued exploration of the Company's uranium projects in the Athabasca Basin and for general working capital purposes. Skyharbour has already met its first-year work commitment of \$500,000 towards the Western Athabasca Syndicate property package including the upcoming drill program at the Preston Lake uranium project. A portion of the proceeds from this financing will go towards Skyharbour's remaining \$500,000 work commitment on the project in the upcoming year.

The Syndicate's 246,643 hectare Preston Property is the largest land package proximal to [Fission Uranium Corp.](#)'s Patterson Lake South ("PLS") high-grade uranium discovery, as well as the recent discovery ("Arrow Prospect") made by NexGen Energy on the Rook 1 Project (see NexGen's news release dated February 19, 2014). The Syndicate holds title to an extensive and geologically prospective property package in the southwest Athabasca Basin region including properties strategically located in all directions around the PLS and NexGen discoveries.
