

Doubleview Adds Dr. Razique to Technical Team

17.02.2015 | [The Newswire](#)

Feb 17, 2015

Vancouver, BC / TheNewswire / [Doubleview Capital Corp.](#) (TSX.V, DBV) (the "Company") is pleased to announce that as it continues to advance its Hat Gold-Copper Porphyry Project in the Sheslay district of northwest British Columbia, the Company has further strengthened its technical team with the addition of Mr. Abdul Razique, Ph.D., as its first full-time geoscientist.

Dr. Razique, who has extensive global experience in the exploration and discovery of large, world-class porphyry deposits, has spent the last 18 months evaluating projects in British Columbia, Quebec and the United States on behalf of a major mining and exploration company and its joint venture partners.

"Dr. Razique's experience and unique understanding of porphyry systems will be invaluable in taking the Hat Project to the next level at this important juncture given the success of hole H-23 which builds on the entire program to date," stated Mr. Pat McAndless, Doubleview's senior technical adviser. "I know Dr. Razique well and I'm delighted that Doubleview has been able to secure his services."

Among his many accomplishments in the field over the last two decades, Dr. Razique as a project geologist was responsible for a wide range of exploration programs as well as resource modeling (between 2003 and 2008) for what became one of the world's largest copper-gold porphyry deposits (Reko Diq) in western Pakistan. Dr. Razique's Ph.D. research project at the University of British Columbia, Mineral Deposit Research Unit (MDRU), was focused on the geology and evolution of the Reko Diq porphyry Cu-Au (Mo) deposits and his conclusions have been published in leading technical journals.

Mr. Farshad Shirvani, Doubleview President and CEO, stated: "We welcome Dr. Razique to our team with great excitement and anticipation. As H-23 demonstrates, we are now drilling into the highest grades yet at the Hat Project and the Lisle Zone continues to expand. Dr. Razique is already focusing on a much bigger picture including the pursuit of a high-grade core area and the potential of the Lisle Zone, already measuring 1 km by 500 meters, to merge with several nearby target areas to form a world class gold-rich porphyry copper deposit in the under-explored Sheslay district."

About Doubleview Capital Corp.

[Doubleview Capital Corp.](#), a mineral resource exploration and development company, is based in Vancouver, British Columbia, Canada and is publicly traded on the TSX-Venture Exchange [TSX-V: DBV], [OTC: DBLVF], [FSE: 1D4]. Doubleview identifies, acquires and finances precious and base metal exploration projects in North America, particularly in British Columbia, Canada. Doubleview increases shareholder value through acquisition and exploration of quality gold, copper and silver properties and the application of advanced state-of-the-art exploration methods. Doubleview's portfolio of strategic properties provides diversification and mitigates investment risk.

On behalf of the Board of Directors,
Farshad Shirvani, President & Chief Executive Officer
