

/NOT FOR DISTRIBUTION TO UNITED STATES NEWSWIRE SERVICES OR FOR DISSEMINATION IN THE UNITED STATES/

SASKATOON, March 26, 2015 /CNW/ - [49 North Resources Inc.](#) ("49 North" or the "Company") (TSXV: FNR) announces that it intends to seek the approval of the holders of its 9% Convertible Unsecured Subordinated Debentures due June 29, 2017 (the "Debentures") to exchange the principal amount of the Debentures, for a combination of common shares ("Common Shares") of the Company, First Preferred Series 1 Shares (the "Preferred Shares") of the Company to be created for the purposes of the transaction and an interest in new 2.5% senior secured convertible debentures (the "New Debentures") of the Company to be created for the purposes of the transaction (the "Proposal"). The Debentures currently trade on the TSX Venture Exchange under the symbol "FNR.DB.B".

Under the terms of the Proposal, holders of the Debentures will receive 150 Common Shares, 25 Preferred Shares and \$25 principal amount of the New Debentures per \$100 principal amount of Debentures held, in full and final settlement of the amounts owing, including interest. The Preferred Shares are intended to have the following characteristics:

- Cumulative 2.5% cash dividends (equal to \$0.025 per share) payable annually, in arrears, beginning on the first anniversary of the date of issuance;
- Non-voting;
- Convertible, at the holder's option, into Common Shares at a conversion price of \$0.50 per Common Share;
- Issued at a price of \$1.00 per Preferred Share; and
- Redeemable by the Company at the issue price at any time after the third anniversary of issuance.

The New Debentures are intended to have the following characteristics:

- Principal amount of up to \$5,000,000;
- 2.5% annual interest rate, which interest will be paid in arrears in annual installments on the anniversary date of issuance to maturity (or earlier in the event of conversion);
- 5 year term;
- The outstanding principal amount of the New Debentures will be convertible, at the holder's option, into Common Shares at a conversion price of \$0.50 per Common Share; and
- The repayment of outstanding principal and interest of the New Debentures will be secured by all present and after acquired personal property of the Company.

Definitive information with respect to the Proposal, once finalized, will be outlined in a management information circular expected to be disseminated to the Debenture holders in April, 2015. The Proposal is made pursuant to the provisions of the Trust Indenture for the Debentures, as amended, which allows for the exchange of the Debentures for other securities of the Company upon approval of at least 66²/₃% of the principal amount of the Debentures voted at the meeting, either in person or by proxy.

The rationale for the Proposal is to further secure the future of the Company during this prolonged downturn for the junior resource capital market while offering the highest possible potential returns to both the existing Debenture holders and Common Share holders.

If the Proposal is approved and implemented, it is expected that the total number of Common Shares issued will be 18,622,771, the total number of Preferred Shares issued will be 3,103,795 and an aggregate of \$3,103,795 principal amount of New Debentures will be issued. The Common Shares, Preferred Shares and New Debentures will be issued pursuant to the "securities for debt" exemption of National Instrument 45-106 Prospectus and Registration Exemptions and will be subject to a 4 month hold period. The Proposal is subject to the receipt of approvals from the TSX Venture Exchange.

49 North is a Saskatchewan focused resource investment company with strategic operations in financial, managerial and geological advisory services and merchant banking. Our diversified portfolio of assets includes direct project involvement in the resource sector, as well as investments in shares and other securities of junior and intermediate mineral and oil and gas exploration companies.
