

VANCOUVER, BRITISH COLUMBIA--(Marketwired - Jun 22, 2015) - [Impact Silver Corp.](#) (TSX VENTURE:IPT) ("IMPACT" or "the Company") announces the retirement and resignation of Mr. H. Walter Sellmer from the board of directors of [Impact Silver Corp.](#) He will also be retiring from the board of directors of [Energold Drilling Corp.](#) (TSX VENTURE:EGD).

Mr. Frederick Davidson, CEO and President, of IMPACT commented as follows: "The Company wishes to sincerely thank Walter for his significant contribution over the years. His wisdom and guidance have helped build a strong foundation to grow IMPACT into a leading player in its industry. We wish Walter all the best as he embarks on his next chapter in life and continued success in his well-deserved retirement."

[Impact Silver Corp.](#) owns two processing plants within its 100% owned land package in south-central Mexico: the Guadalupe Production Centre and the Capire Production Centre. At Guadalupe, three underground silver mines feed the central 500 tonnes per day processing plant located within the historic Royal Mines of Zacualpan Silver District. At Capire, the processing plant is potentially available to supplement the processing of gold and copper mineralization from the Carlos Pacheco/San Juan Project when circumstances warrant it. Additional information can be found on the Company website at www.IMPACTSilver.com.

On behalf of the Directors of [Impact Silver Corp.](#),

"Frederick W. Davidson"

President, CEO

Forward-Looking and Cautionary Statements

This IMPACT News Release may contain certain "forward-looking" statements and information relating to IMPACT that is based on the beliefs of IMPACT management, as well as assumptions made by and information currently available to IMPACT management. Such statements reflect the current risks, uncertainties and assumptions related to certain factors including but not limited to, without limitations, exploration and development risks, expenditure and financing requirements, title matters, operating hazards, metal prices, political and economic factors, competitive factors, general economic conditions, relationships with vendors and strategic partners, governmental regulation and supervision, seasonality, technological change, industry practices, and one-time events. Should any one or more risks or uncertainties materialize or change, or should any underlying assumptions prove incorrect, actual results and forward-looking statements may vary materially from those described herein. IMPACT does not assume the obligation to update any forward-looking statement.

The Company's decision to place a mine into production, expand a mine, make other production related decisions or otherwise carry out mining and processing operations, is largely based on internal non-public Company data and reports based on exploration, development and mining work by the Company's geologists and engineers. The results of this work are evident in the discovery and building of multiple mines for the Company and in the track record of mineral production and financial returns of the Company since 2006. Under NI43-101 the Company is required to disclose that it has not based its production decisions on NI43-101-compliant mineral resource or reserve estimates, preliminary economic assessments or feasibility studies, and historically such projects have increased uncertainty.
