

VANCOUVER, BRITISH COLUMBIA--(Marketwired - Jun 26, 2015) - [Skyharbour Resources Ltd.](http://www.skyharbourltd.com) (TSX VENTURE:SYH)(OTC:SYHBF)(FRANKFURT:SC1N) (the "Company") is pleased to announce that further to its news releases dated June 18, 2015, it has closed its non-brokered private placement to raise gross flow-through proceeds of \$308,000 and has issued 6,10,000 Flow-Through Units at a subscription price of \$0.05. Each unit consists of one flow-through common share and one non-transferable share purchase warrant exercisable into one non flow-through share for a period of five years at an exercise price of \$0.10 per share. The shares issued under the private placement and any shares issued pursuant to the exercise of the warrants are subject to a four month and one day hold period under applicable securities laws and imposed by the TSX Venture Exchange.

Skyharbour's Uranium Project Portfolio in the Athabasca Basin:  
[http://skyharbourltd.com/\\_resources/maps/SYH\\_Landpackage\\_2014\\_lrg.jpg](http://skyharbourltd.com/_resources/maps/SYH_Landpackage_2014_lrg.jpg)

Skyharbour Resources intends to utilize the proceeds from this private placement for its continuing exploration programs on its Athabasca Basin, Saskatchewan uranium properties including additional field work at its 100% owned Falcon Point Uranium Project as well as at the Preston Uranium Project proximal to Fission Uranium and NexGen Energy's high-grade discoveries.

About Skyharbour Resources Ltd.:

Skyharbour holds interest in an extensive portfolio of uranium and thorium exploration projects in Canada's Athabasca Basin and is well positioned to benefit from improving uranium market fundamentals with four drill-ready projects. The Company is the operator of the Western Athabasca Syndicate which controls a large, geologically prospective land package consisting of five properties in the Athabasca Basin of Saskatchewan. Skyharbour also owns a 100% interest in the Falcon Point (formerly Way Lake) Uranium Project on the east side of the Basin which hosts an NI 43-101 inferred resource totaling 7.0 million pounds of U3O8 at 0.03% and 5.3 million pounds of ThO2 at 0.023%. The Company owns a 60% interest in the Mann Lake Uranium project on the east side of the Basin strategically located adjacent to the Mann Lake Joint Venture operated by Cameco with partners Denison Mines and AREVA where high-grade, basement-hosted uranium mineralization was recently discovered. Skyharbour's goal is to maximize shareholder value through new mineral discoveries, committed long-term partnerships, and the advancement of exploration projects in geopolitically favourable jurisdictions.
