

SANDPOINT, ID / ACCESSWIRE / July 15, 2015 / [WestMountain Gold Inc.](#) ("WestMountain") (OTCQB: WMTN), a mineral exploration and development company, has commenced operations at the Terra Project in Alaska for the 2015 field season. On June 22 and 29, 2015, the first shipments of 410 ounces of gold dore were shipped to the refinery for assay and refining to bullion. This represents the first 2 and a half weeks of operations of the pilot gold mill. The company continues to process material at the pilot gold mill facility; averaging 8 to 10 tons daily and plans to upgrade the milling facility. Project development, construction, bulk sample mining and milling and exploration will continue throughout the field season.

CEO Greg Schiffrin stated, "We are pleased to have operations underway at Terra this year and production from our pilot mill to generate cash flow. We continue to explore and develop the high grade veins present and increase our operations at Terra."

About

[WestMountain Gold Inc.](#) (OTCQB: WMTN) is an exploration and development company that explores, acquires, and develops advanced stage mineral properties. The Company currently has rights 100% interest in a high-grade gold system in the resource definition phase with 49,809 ounces of indicated and 369,795 ounces of inferred gold for a total of 419,604 ounces of gold based on the NI 43-101 Technical Report completed by Gustavson Associates on February 19, 2013. This high-grade gold system in total offers potential of greater than 1,000,000 ounces. The Terra project consists of 344 Alaska state mining claims covering 223 square kilometers. All government permits and reclamation plans for continued exploration through 2014 were renewed in 2010.
