

Metals Creek Resources Corporation: Announces Private Placement of Flow-Through and Non Flow-Through Units

13.08.2015 | [Marketwired](#)

TORONTO, August 13, 2015 - [Metals Creek Resources Corp.](#) ("Metals Creek" or the "Company") (TSX VENTURE:MEK) announces that it intends to complete a private placement of flow-through and non flow-through units (the "Private Placement").

The Company intends to issue up to 2,000,000 flow-through units at a price of \$0.10 per unit (the "FT Units") for aggregate proceeds of up to \$200,000. Each FT Unit will consist of one flow-through common share (the "FT Shares") and one-half of one non flow-through common share purchase warrant (the "FT Warrants"). Each whole FT Warrant will entitle the holder to purchase one additional non flow-through common share of the Company at an exercise price of \$0.15 per common share for a period of 24 months from the date of issue. The FT Shares will entitle the holder to receive the tax benefits applicable to flow-through shares, in accordance with provisions of the *Income Tax Act* (Canada).

The Company also intends to issue up to 1,250,000 non flow-through units at a price of \$0.08 per unit (the "NFT Units") for aggregate proceeds of up to \$100,000. Each NFT Unit will consist of one non flow-through common share and one non flow-through common share purchase warrant (the "FT Warrants"). Each FT Warrant will entitle the holder to purchase one additional non flow-through common share of the Company at an exercise price of \$0.15 per common share for a period of 24 months from the date of issue.

The Company may pay cash finders' fees equal to 8% of the gross proceeds raised in the Private Placement to qualified registrants. As additional consideration, qualified registrants may be issued compensation warrants (the "Finder Warrants") exercisable for that number of common shares of the Company equal in number to 8% of the number of FT Units and NFT Units sold under the Private Placement. The Finder Warrants will be exercisable at a price of \$0.15 per common share for a period of 24 months from the date of issuance.

All securities issued pursuant to the Private Placement will be subject to a four-month hold period. The Private Placement is subject to approval by the TSX Venture Exchange.

The proceeds raised from the FT Units will be used to further exploration work on the Ogden Gold Project in Timmins, Ontario, and other Canadian Exploration Expenses (within the meaning of the *Income Tax Act* (Canada)), with the Company using its best efforts to ensure that such Canadian Exploration Expenses qualify as a "flow-through mining expenditure" for purposes of the *Income Tax Act* (Canada), related to the exploration of the Company's exploration projects.
