

EDMONTON, ALBERTA--(Marketwired - Jan 21, 2016) - [Athabasca Minerals Inc.](#) ("Athabasca" or the "Corporation") (TSX VENTURE:ABM) is pleased to announce the appointment of Mr. Chris Greenwood, G.S.C., to the position of Vice President, Operations. Mr. Greenwood will be responsible for the continuing development of the aggregate business in the Wood Buffalo region, expanding the Corporation's market share throughout Western Canada, and complimenting the increased focus on potential infrastructure related projects for Athabasca industrial minerals.

President and CEO Scott MacDougall states; "We are extremely pleased to have Chris join our management team to continue our leadership in the delivery of industrial minerals in Alberta. His strong construction background in both aggregate sales, rilling aggregates and large project commissioning will assist Athabasca's growth. Chris will be instrumental in complementing our existing management team to meet current and future demand."

Mr. Greenwood is the former President and General Manager of Standard General Inc., an Alberta based major construction contractor employing over 400 employees, and a subsidiary of the Coals Group of Companies. During his 40-year tenure at Standard General, he oversaw operations which included aggregate sales, asphalt sales, road construction and asphalt paving, residential / industrial / commercial construction and concrete work. Mr. Greenwood led revenue growth from \$30 million to \$140 million at Standard General during his leadership, and oversaw the coordination of up to 100 publicly tendered and privately negotiated projects per year. Mr. Greenwood was the representative for large-scale projects including aggregate supply for the Fort Hills Upgrader; West Anthony Henday Ring Road; Long Term Neighborhood Rehabilitation Dovercourt and the 41st Avenue Interchange Surface Works.

Mr. Greenwood has been involved in several associations including the Urban Development Institute Edmonton Chapter, Alberta Roadbuilders and Heavy Construction Association, Technical Advisory Committee University of Alberta, Alberta Construction Association, Canadian Construction Association and the Canadian Technical Asphalt Association.

About Athabasca Minerals

The Corporation is a resource company involved in the management, exploration and development of aggregate and silica sand projects. These activities include contracts works, aggregate pit management, aggregate production and sales from corporate-owned pits, new aggregate development and acquisitions of sand and gravel operations, and development and supply of frac sand for Western Canada. The Corporation also has industrial mineral land holdings for the purpose of locating and developing sources of industrial minerals and aggregates essential to high growth economic development.

Neither the TSX Venture nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture) accepts responsibility for the adequacy or accuracy of this release.
