

# Greencastle Resources Ltd. Renews Normal Course Issuer Bid and Cancels 1,640,000 Shares

24.03.2016 | [Marketwired](#)

TORONTO, Mar 24, 2016 - [Greencastle Resources Ltd.](#) (the "Company") (TSX VENTURE:VGN) wishes to announce that, subject to regulatory approval, it will conduct a normal course issuer bid (the "Bid"). The Bid will be for 3,648,305 common shares of the Company over a period of one year (the "Bid Period"), being approximately 8.5% of Company's issued and outstanding common shares, with up to 855,013 common shares of the Company purchasable over any 30-day period within the Bid Period, being 2% of Company's issued and outstanding common shares. The Bid Period will commence on March 30, 2016, and will continue until the earlier of March 29, 2017, or the date by which the Company has acquired the maximum 3,648,305 common shares which may be purchased under the Bid.

During the period between March 16, 2015, and March 15, 2016, the Company completed the purchase and cancellation of 1,640,000 common shares under its previous normal course issuer bid at a volume weighted average price of \$0.06 per share.

Management believes that the market price of the Company's common shares may not fully reflect the value of its business and future prospects, and as such it believes that purchasing its own common shares for cancellation is an appropriate strategy for increasing long-term shareholder value. The purchases will be made through the facilities of the TSX Venture Exchange (the "TSXV"), and the price at which the Company will purchase its common shares will be the market price of the shares at the time of acquisition. The Company has appointed Canaccord Genuity Wealth Management as its broker to conduct normal course issuer bid transactions.

The Company has 42,750,671 common shares issued and outstanding. Common shares purchased by the Company will be returned to treasury for cancellation.

*This news release contains forward-looking statements. These statements are based on information currently available to the Company and the Company provides no assurance that actual results will meet management's expectations. Forward-looking statements include estimates and statements that describe the Company's future plans, objectives or goals, including words to the effect that the Company or management expects a stated condition or result to occur. Forward-looking statements may be identified by such terms as "believes", "anticipates", "expects", "estimates", "may", "could", "would", "will", or "plan". Since forward-looking statements are based on assumptions and address future events and conditions, by their very nature they involve inherent risks and uncertainties. Actual results relating to, among other things, results of exploration, project development, reclamation and capital costs of the Company's mineral properties, and the Company's financial condition and prospects, could differ materially from those currently anticipated in such statements for many reasons such as: changes in general economic conditions and conditions in the financial markets; changes in demand and prices for minerals; litigation, legislative, environmental and other judicial, regulatory, political and competitive developments; technological and operational difficulties encountered in connection with the activities of the Company; and other matters discussed in this news release. This list is not exhaustive of the factors that may affect any of the Company's forward-looking statements. These and other factors should be considered carefully and readers should not place undue reliance on the Company's forward-looking statements. The Company does not undertake to update any forward-looking statement that may be made from time to time by the Company or on its behalf, except in accordance with applicable securities laws.*
