

ALPINE, UT, April 21, 2016 /PRNewswire/ - Mining Operations

After a difficult winter, the snows at Clifton have melted and Desert Hawk Gold Corp. is ramping up production at the Kiewit project. With the infrastructure fully in place and a good bit of only partly-leached ore already on the pad, this year should see a significant increase in gold production. Rick Havenstrite, CEO of Desert Hawk, estimates they will produce at least 8,000 ounces of gold in 2016.

Please see the Company's website www.cliftonmining.com for additional information including the Company's audited financial reports for the years ending December 31, 2015 and 2014. Clifton trades on the U.S. OTC: (CFTN).
