THUNDER BAY, ON, July 18, 2017 /CNW/ - [Premier Gold Mines Ltd.](#) ("Premier" or "The Company") (TSX:PG) is pleased to announce its second quarter production results and a continued solid and safe track record from the Company's mining operations.

Q2 - 2017 Production Highlights:

- Gold production of 37,617 ounces
- Silver production of 89,474 ounces
- Gold sales of 43,213 ounces at an average realized price of US\$1,256 per ounce

Operations in 2017 have outperformed expectations and as a result the Company is increasing its full-year production guidance to 130,000-140,000 ounces from 125,000 to 135,000 ounces of gold and to 340,000 to 365,000 ounces of silver, up from 325,000 to 350,000 ounces.

Table 1 provides a summary of production statistics from the mines and of ounces sold on a Q2 and year-to-date (YTD) basis.

Table 1 Preliminary Production and Sales Results for Q2 2017 and YTD

Mine	Gold Production (ounces)		Silver Production (ounces)	
	Q2 2017	YTD 2017	Q2 2017	YTD 2017
Mercedes, Mexico	21,893	44,057	89,474	178,046
South Arturo, Nevada	15,724	44,539	0	0
Consolidated Production	37,617	88,596	89,474	178,046
Gold Ounces Sold	43,213	94,806	97,357	171,190

"The continued strong performance at both of the Premier Gold operating sites, including the extension of open pit mining at South Arturo, has resulted in a spectacular cash position and a historic strong balance sheet. Consequently, we have increased our 2017 production guidance.," stated John Begeman, Executive Chairman of Premier, in the company's C-Suite Blog <https://www.premiergoldmines.com/news/c-suite-blog/all>, "Attributable gold production from our first four quarters as a gold producer has exceeded 200,000 ounces. The financial performance from this past production will allow for further funding support of our project pipeline."

South Arturo Mine, Nevada

The South Arturo Mine, a joint venture operated by Barrick Gold, has delivered exceptional results since achieving commercial production with higher than forecasted grades in the mine and revised pit wall slope designs that have allowed for additional extraction.

The potential to further expand operations on the property is underway and includes the El Nino underground project and two potential open pits (Phases 1&3). A Plan of Operations for the construction of a ramp at El Nino to access high-grade mineralization down-dip of the current pit has been submitted for approval with Nevada regulatory authorities and several permits have now been granted. Upon receipt of permits, the partnership is planning to develop an underground access to complete detailed drilling and mine planning in advance of potential future production. The proposed Phase 1 open pit development has been advanced into the draft mine plan for detailed review. If approved, development could begin in early 2019. As part of this review and Phase 3, drilling to complete additional metallurgical and geotechnical characterization has commenced at both pit sites.

Mercedes Mine, Mexico

The Mercedes Mine continues to deliver solid and safe performance with a strong operating team focused on identifying and implementing measures to increase productivity and reduce costs. Results to date include reduced mining dilution and improved gold and silver recoveries.

During the second quarter, the deferral of non-material mining operations allowed some mine personnel to support the safe

suppression of an offsite brush fire in order to ensure it did not encroach the mine site. Exploration and resource definition drilling continues to be a priority. Both surface and underground drilling was significantly increased in the last month to a total of nine drills active on the property.

Q2 – 2017 financial results and conference call details:

Full financial results for the three months ended June 30, 2017, will be released before market open on August 9, 2017 and a conference call with senior management will be held at 10:00 a.m EST.

Details for the conference call and webcast can be found below and will be accessible on the Company's website.

Toll Free (North America): 1-888-231-8191
International: 1-647-427-7450
Conference ID: 51433191
