

TORONTO, Sept. 07, 2017 (GLOBE NEWSWIRE) -- [Lydian International Ltd.](http://www.lydianinternational.co.uk) (TSX:LYD) ("Lydian" or "the Company") announced today that the Company will attend the 2017 Precious Metals Summit to be held September 18 & 20, 2017 in Beaver Creek, Colorado. Howard Stevenson, Chief Executive Officer of Lydian, will host one-on-one meetings during the conference and present to attendees on Monday, September 18, 2017 at 8:45 a.m. The presentation will provide an update on construction and upcoming activities at the Company's Amulsar Gold Project in Armenia.

The presentation will be available on Lydian's website at www.lydianinternational.co.uk.

About Lydian International Limited

Lydian is a gold developer, focusing on construction at its 100%-owned Amulsar Gold Project, located in south-central Armenia. Amulsar presents an opportunity for a large-scale, low-cost operation with production expected to begin in mid-2018. Open pit mining and conventional heap leach processing contribute to excellent scale and economic potential. Amulsar will be Armenia's largest gold mine, with estimated mineral resources containing 3.5 million measured and indicated gold ounces and 1.3 million inferred gold ounces. Gold production is targeted to average approximately 225,000 ounces annually over an initial 10-year mine life. Existing mineral resources and open extensions provide opportunities to improve average annual production and extend the life of mine. The Company is committed to good international industry practices in all aspects of its operations including production, sustainability, and corporate social responsibility. Caution regarding forward-looking information

Certain information contained in this news release is "forward looking". All statements in this news release, other than statements of historical fact, that address events, results, outcomes or developments that the Company expects to occur are "forward-looking statements". Forward-looking statements are statements that are not historical facts and are generally, but not always, identified by the use of forward-looking terminology such as "plans", "expects", "intends", "anticipates", "proposes" or variations of such words and phrases or statements that certain actions, events or results "will", "may", "could", "would", "should", or "occur" or the negative connotation of such terms. Forward-looking statements in this news release include, among others, statements with respect to: the realization of mineral resource estimates and the timing of development of the Amulsar Gold Project, including the expected start date of production; the potential improvement of average annual production and extension of the Amulsar Gold Project mine life through the evaluation of currently defined inferred resources and from open extensions at depth; the commitment to and implementation of good international industry practices; the expected gold production from, and life of mine of, the Amulsar Gold Project; the expected mining methods at the Amulsar Gold Project; the estimated cash cost per ounce of gold over the life of mine of the Amulsar Gold Project; and the expected cost of operations at the Amulsar Gold Project. Statements concerning mineral resource and mineral reserve estimates may also be deemed to constitute forward-looking information to the extent that they involve estimates of the mineralization that will be encountered when the property is developed.

Forward-looking statements are necessarily based on estimates and assumptions that are inherently subject to known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements to be materially different from those expressed or implied by such forward-looking statements. Such risks, uncertainties and factors include, without limitation: changes in gold and silver prices; adverse general economic, market or business conditions; regulatory changes; failure to improve average annual production and extend the Amulsar Gold Project mine life through the evaluation of defined inferred resources and from open extensions at depth; as well as "Risk Factors" included in the disclosure documents filed on and available at www.sedar.com. Forward-looking statements are not guarantees of future performance, and actual results and future events could materially differ from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. All of the forward-looking statements contained in this news release are qualified by these cautionary statements. The Company expressly disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, events or otherwise, except in accordance with applicable securities laws.
