

American Potash Acquire 640-acre Colorado State Mineral Lease in San Miguel County

09.11.2017 | [The Newswire](#)

Vancouver, November 9, 2017: [American Potash Corp.](#) (the "Company") (AMP:CSE) have concluded acquisition of a 640-acre Colorado State Exploration Permit. The new state exploration permit adds 640-acres to AMP's Colorado Li Project, provides access to the property and adjacent Federal lands for up to 4-years, and allows for exploration and initial development activities of Li and other potentially valuable minerals (Br, K, etc.) concentrated in sub-surface brines. Subsequent to expiration of the 4-year exploration mineral lease, the lease can be converted into a Colorado State Mineral Lease based on positive exploration results. A state mineral lease will allow development and ultimately production of Li and other elements of value, excluding hydrocarbons (oil, gas, coal, etc.).

On behalf of the Board of Directors

"Rudy de Jonge"

Rudy de Jonge, CEO

Neither the OTCQX nor the Canadian Securities Exchange nor its Regulation Services Provider (as that term is defined in the policies of the Canadian Securities Exchange) accepts responsibility for the adequacy or accuracy of this release.

Statements in this press release other than purely historical information, including statements relating to the Company's future plans and objectives or expected results, are "Forward-Looking Statements" within the meaning of Section 21E of the United States Securities Exchange Act of 1934, as amended and Canadian securities laws. Forward Looking Statements are based on numerous assumptions and are subject to all of the risks and uncertainties inherent in the Company's business, including risks inherent in resource exploration and development. As a result, actual results may vary materially from those described in the Forward Looking Statements.

Key assumptions upon which the Company's forward-looking statements and information are based include: the price of potash will rise and not fall significantly; the Company's ability to secure new financing to continue its exploration and development activities; there being no significant changes in the ability of the Company to comply with environmental, safety and other regulatory requirements; the Company's ability to obtain regulatory approvals in a timely manner; and the Company's ability to achieve its growth strategy. These assumptions should be considered carefully by readers. Readers are further cautioned that the foregoing list of assumptions is not exhaustive. Although the Company believes that the assumptions on which the forward-looking statements or information are made are reasonable, based on the information available to the Company on the date such statements were made, no assurances can be given as to whether these assumptions will prove to be correct.
