Vancouver, February 19, 2020 - David H. Brett, President & CEO, [Engold Mines Ltd.](#) (TSXV: EGM) ("EnGold" or the "Company"), reports that EnGold has acquired an option to purchase 100% of the Tam Property which comprises 875 hectares of mineral claims adjoining the Company's Lac La Hache Property directly to the east of the Aurizon Gold Deposit. The Tam Property hosts a number of prospective targets lying on-trend with the main 7- km exploration corridor that hosts the Spout, G1, Aurizon & Ann North zones.

"Acquisition of the Tam Property allows us to extend the Spout-Aurizon trend at Lac La Hache out to roughly 10 km, said Rob Shives, VP Exploration. "On the Tam Property itself, existing induced polarization, magnetic, geochemical anomalies and surface showings are completely untested at depth and warrant more work."

Regional aeromagnetic patterns show the extension from the Lac La Hache Project. Exploration on the Tam Property between 1966 and 2008 identified several alkalic porphyry copper-(gold) prospects coincident with induced polarization chargeability anomalies and soil copper/gold anomalies. Only limited shallow historical drilling has been completed on the Tam Property to date.
