NEW YORK, June 24, 2020 - [Bullfrog Gold Corp.](#) (CSE: BFG) (OTCQB: BFGC) (FSE: 11B) today announces its placement in an editorial published by NetworkNewsWire ("NNW"), one of 40+ brands in the InvestorBrandNetwork (&#8220;IBN&#8221;), a multifaceted financial news and publishing company for private and public entities.

Whoever has the gold, makes the rules&#8212;this expression seems apt for 2020, as a confluence of factors has analysts predicting a &#8220;golden year&#8221; for the mining industry. Three decades of dwindling gold mine discoveries combined with increased industrial demand for gold across numerous industries has put a serious floor under the recent rise of the gold price. Operating in one of the world&#8217;s premiere mining jurisdictions, [Bullfrog Gold Corp.](#) (CSE: BFG) (OTCQB: BFGC) (FSE: 11B) (BFG Profile) controls the mineral rights to a strategic 5,000+ acre land package with exceptional exploration and development characteristics.

Last year, Bullfrog completed hugely successful heap leach tests on four bulk samples from the Bullfrog, Montgomery-Shoshone and Mystery Hill areas. In early June 2020, BFGC completed 12,520 feet of drilling in a 25-hole program to better define expansion limits of two pits and initially drill test the new Paradise Ridge exploration target that is a compelling analog to the Bullfrog deposit. Assays on the first six holes were released on June 17, 2020, and remaining results will become available in the coming weeks. The company is now in an optimal position to execute on a forthcoming independent preliminary economic analysis that will include updated resource estimates, optimized pit plans, capital and operating cost estimates and projected financial performance.
