

# Colibri Resource Corporation Receives Results of Continuing Work at the Pilar Gold-Silver Project, Sonora Mexico

30.09.2020 | [Newsfile](#)

Dieppe, September 30, 2020 - [Colibri Resource Corp.](#) (TSXV: CBI) ("Colibri" or the "Company") is pleased to announce that the Company has received an update from its option partner Tocvan Ventures (CSE: TOC) on the Pilar Gold-Silver Project ("Pilar") in Sonora, Mexico. Tocvan is in the second year of a five-year option agreement to purchase an initial 51% of the Pilar Gold-Silver Project.

Tocvan is executing a comprehensive exploration program at Pilar which includes the application of geophysics, geochemistry, and structural geology. Based on work completed to date, Tocvan has interpreted the presence of a "Pipe-Like" feature approximately 100m in diameter with a steep plunge to the south-southwest. The pipe-like feature is controlled by a fold hinge and Tocvan has interpreted it as a potential breccia pipe, part of the epithermal gold-silver system at Pilar and is a priority drill target. Details of the work completed and description of the breccia pipe are contained in the Tocvan press release dated September 29, 2020.

Tocvan is currently finalizing drill targets for Pilar, applying for the required permits, and negotiating with contractors in preparation for their near term drilling program.
