

# Caledonia declares another increased quarterly dividend

01.10.2020 | [GlobeNewswire](#)

ST HELIER, Oct. 01, 2020 - [Caledonia Mining Corporation plc](#) (&#8220;Caledonia&#8221; or the &#8220;Company&#8221;) (NYSE AMERICAN: CMCL; AIM: CMCL) is pleased to announce that the Board of Directors has declared an increased quarterly dividend of ten United States cents (US\$0.10) on each of the Company's common shares.

## Highlights

- 18% increase from the previous quarterly dividend of 8.5 cents paid in July 2020
- 45% cumulative increase from the level of 6.875 cents since October 2019
- Third increase in the dividend since October 2019
- Significant business resilience demonstrated through the COVID 19 pandemic
- Central Shaft equipping on track to be completed in Q4 2020 and commissioning to be completed by end of Q1 2021
- Stable production, a high gold price and good cost control have resulted in increased cash generation in 2020; this has given the Board confidence that the business can sustain a higher level of dividend distributions before the benefits of the completion of Central Shaft are realised.

Commenting on the announcement, Steve Curtis, Chief Executive Officer, said:

*&#8220;We are pleased to announce an 18 per cent increase in our quarterly dividend, the third increase in the past nine months, representing a cumulative 45 per cent increase on the dividend in the past 12 months. The decision by the Board to increase the dividend reflects our continued and increasing confidence in the outlook for our business. As we reported in our Q2 2020 results, the business continues to perform well, supported by strong production and a firm gold price.*

*&#8220;As we approach the end of the six-year investment programme at Blanket Mine, we anticipate that the rate of capital expenditure will begin to reduce in 2021. We expect the combination of rising production and declining capital investment to give us greater flexibility to consider further increases in the dividend in addition to possible investment in new projects.&#8221;*

The relevant dates relating to the dividend are as follows:

- Ex-dividend date: October 15, 2020
- Record date: October 16, 2020
- Dividend cheque mailing date: October 30, 2020

Shareholders with a registered address in the UK will be paid in Sterling.

## Caledonia's Dividend Policy

Caledonia's strategy to maximise shareholder value includes a quarterly dividend policy which the Board of Directors adopted in 2014. The Board will consider future increases in the dividend as appropriate and in line with its prudent approach to risk management.

#### Cautionary Note Concerning Forward-Looking Information

*Information and statements contained in this news release that are not historical facts are forward-looking information; within the meaning of applicable securities legislation that involve risks and uncertainties relating, but not limited to Caledonia's current expectations, intentions, plans, and beliefs. Forward-looking information can often be identified by forward-looking words such as anticipate, believe, expect, goal, plan, target, intend, estimate, could, should, may, and will; or the negative of these terms or similar words suggesting future outcomes, or other expectations, beliefs, plans, objectives, assumptions, intentions or statements about future events or performance. Examples of forward-looking information in this news release include: production guidance, estimates of future/targeted production rates, and our plans and timing regarding further exploration and drilling and development. This forward-looking information is based, in part, on assumptions and factors that may change or prove to be incorrect, thus causing actual results, performance or achievements to be materially different from those expressed or implied by forward-looking information. Such factors and assumptions include, but are not limited to: failure to establish estimated resources and reserves, the grade and recovery of ore which is mined varying from estimates, success of future exploration and drilling programs, reliability of drilling, sampling and assay data, assumptions regarding the representativeness of mineralization being inaccurate, success of planned metallurgical test-work, capital and operating costs varying significantly from estimates, delays in obtaining or failures to obtain required governmental, environmental or other project approvals, inflation, changes in exchange rates, fluctuations in commodity prices, delays in the development of projects and other factors.*

*Security holders, potential security holders and other prospective investors should be aware that these statements are subject to known and unknown risks, uncertainties and other factors that could cause actual results to differ materially from those suggested by the forward-looking statements. Such factors include, but are not limited to: risks relating to estimates of mineral reserves and mineral resources proving to be inaccurate, fluctuations in gold price, risks and hazards associated with the business of mineral exploration, development and mining, risks relating to the credit worthiness or financial condition of suppliers, refiners and other parties with whom the Company does business; inadequate insurance, or inability to obtain insurance, to cover these risks and hazards, employee relations; relationships with and claims by local communities and indigenous populations; political risk; risks related to natural disasters, terrorism, civil unrest, public health concerns (including health epidemics or outbreaks of communicable diseases such as the coronavirus (COVID-19)); availability and increasing costs associated with mining inputs and labour; the speculative nature of mineral exploration and development, including the risks of obtaining or maintaining necessary licenses and permits, diminishing quantities or grades of mineral reserves as mining occurs; global financial condition, the actual results of current exploration activities, changes to conclusions of economic evaluations, and changes in project parameters to deal with unanticipated economic or other factors, risks of increased capital and operating costs, environmental, safety or regulatory risks, expropriation, the Company's title to properties including ownership thereof, increased competition in the mining industry for properties, equipment, qualified personnel and their costs, risks relating to the uncertainty of timing of events including targeted production rate increase and currency fluctuations. Security holders, potential security holders and other prospective investors are cautioned not to place undue reliance on forward-looking information. By its nature, forward-looking information involves numerous assumptions, inherent risks and uncertainties, both general and specific, that contribute to the possibility that the predictions, forecasts, projections and various future events will not occur. Caledonia undertakes no obligation to update publicly or otherwise revise any forward-looking information whether as a result of new information, future events or other such factors which affect this information, except as required by law.*
