

Colibri Resource Corp. Receives Word That Partner at Pilar Gold Project Has Completed Its Phase 1 Drill Program

23.12.2020 | [Newsfile](#)

Dieppe, December 23, 2020 - [Colibri Resource Corp.](#) (TSXV: CBI) ("Colibri" or the "Company") is pleased to announce that the Company has received confirmation from its option partner, Tocvan Ventures (CSE: TOC) that they have completed its Phase 1 drilling program at Colibri's Pilar Gold & Silver project this week.

The Phase 1 program was designed to provide important structural information for defining drill targets along the main mineralized trend and across the deep-seated feeder-pipe like structures interpreted from recent geophysical studies. A phase 2 drill program to test these targets is planned for early 2021.

Tocvan is currently earning 51% ownership of the Pilar Gold & Silver Project as per the terms announced in a Colibri press release dated November 26th, 2019.

About the Pilar Property

The Pilar Gold-Silver property is interpreted as a structurally controlled low-sulphidation epithermal project hosted in andesite and rhyolite rocks. Three zones of mineralization have been identified in the north-west part of the property from historic surface work and drilling and are referred to as the Main Zone, North Hill and 4 Trench. Structural features and zones of mineralization within the structures follow an overall NW-SE trend of mineralization. Over 17,700m of drilling have been completed to date. Significant historical results are highlighted below:

- 17,700m of Core & RC drilling. Highlights include (all lengths are drilled thicknesses):
 - 0.73g/t Au over 40m
 - 0.75g/t Au over 61m
 - 17.3g/t Au over 1.5m
 - 5.27g/t Au over 3m
 - 53.47g/t Au & 53.4g/t Ag over 16m
 - 9.64g/t Au over 13m
 - 10.6g/t Au & 37.8g/t Ag over 9m
- 2,650m of surface and trench channel sampling. Highlights include:
 - 55g/t Au over 3m
 - 28.6g/t Au over 6m
 - 3.39 g/t Au over 50m
- Soil sampling results from undrilled areas indicating mineralization extends towards the southeast from the Main Zone, North Hill Zone, and 4-Trench Zone

Qualified Person

Jamie Lavigne, P. Geo and a Director for Colibri is a Qualified Person as defined in NI 43-101 and has reviewed and approved the technical information in this press release.

About Colibri Resource Corporation:

Colibri is a Canadian-based mineral exploration company listed on the (TSXV: CBI) focused on acquiring and exploring properties in Mexico. The Company currently has five active projects at various stages of exploration. The Evelyn Gold Project is 100% owned and explored by the Company and four projects Pilar, El Mezquite, Jackie, and Pitaya are currently subject to joint venture or earn agreements to arms length

parties.
