

Cordoba Minerals Closes Final Tranche of Fully-Subscribed Non-Brokered Private Placement

19.02.2021 | [Newsfile](#)

Vancouver, February 19, 2021 - [Cordoba Minerals Corp.](#) (TSXV: CDB) (OTCQB: CDBMF) ("Cordoba" or the "Company") announces today that it has closed the second and final tranche of its previously announced fully-subscribed non-brokered private placement (the "Offering") (refer to Cordoba's news releases dated December 4, 2020 and December 24, 2020). In connection with the closing of this final tranche of the Offering, the Company has issued an aggregate of 452,975 units of the Company (the "Units") to JCHX Mining Management Co., Ltd. ("JCHX"), Cordoba's second largest shareholder, at a price of \$1.275 per Unit for gross proceeds of \$577,543.13. Upon completion of the second and final tranche, the Company has received total gross proceeds of approximately \$5.2 million from the Offering.

Each Unit consists of one common share of the Company ("Share") and one Share purchase warrant ("Warrant"). Each Warrant entitles the holder, on exercise, to purchase one Share for a period of 24 months following the closing date of the final tranche of the Offering at the exercise price of \$1.955 per Share.

As previously announced, JCHX had agreed to purchase 7,700,584 Units to maintain its 19.99% interest in the Company on a partially diluted basis. The closing of this tranche of the Offering (the "JCHX Tranche") was subject to the receipt of customary approvals and registration with Chinese regulatory agencies, which have now been received. As a result of the Company's 17 for 1 share consolidation (refer to Cordoba's news release dated January 26, 2021) taking effect on February 9, 2021 (the "Consolidation"), the aggregate subscription amount of \$577,543 remained the same, however the number of Units, Unit price, and exercise price of the warrants were each adjusted to 452,975, \$1.275 and \$1.955, respectively, in accordance with the terms of the Consolidation.

Net proceeds from the Offering will be used to advance fieldwork supporting the completion of the Pre-Feasibility Study at the Company's 100%-owned Alacran Copper-Gold-Silver Project in Colombia (refer to Cordoba's news release dated November 30, 2020) and for general corporate purposes.

The Company did not pay any finder's fees in connection with the JCHX Tranche. The securities underlying the Units are being offered pursuant to exemptions from the prospectus requirements and are subject to a four month and one day hold period expiring on June 19, 2021. The JCHX Tranche remains subject to the final approval of the TSX Venture Exchange.

The JCHX Tranche (the "Related Party Participation"), constitutes a "related party transaction" under Multilateral Instrument 61-101 -- Protection of Minority Security Holders in Special Transactions ("MI 61-101") as JCHX is a related party of Cordoba given its greater than 10% beneficial shareholding, respectively. Pursuant to Section 5.5(a) and 5.7(1)(a) of MI 61-101, the Company is exempt from obtaining a formal valuation and minority approval of the Company's shareholders in respect of the JCHX Tranche due to the fair market value of the Related Party Participation being below 25% of the Company's market capitalization for purposes of MI 61-101. The Company filed a material change report in respect of the JCHX Tranche on January 4, 2021.

About Cordoba

[Cordoba Minerals Corp.](#) is a mineral exploration company focused on the exploration, development and acquisition of copper and gold projects. Cordoba is developing its 100%-owned San Matias Copper-Gold-Silver Project, which includes the Alacran Deposit and satellite deposits at Montiel East, Montiel West and Costa Azul, located in the Department of Cordoba, Colombia. This news release does not constitute an offer to sell or a solicitation of an offer to buy any of the securities in the United States. The securities have not been and will not be registered under the United States Securities Act of 1933, as amended (U.S. Securities Act) or any state securities laws and may not be offered or sold within the United States or to U.S. persons unless registered under the U.S. Securities Act and applicable state securities laws or an exemption from such registration is available.

Forward-Looking Statements

This news release includes "forward-looking statements" and "forward-looking information" within the meaning of Canadian securities legislation. All statements included in this news release, other than statements of historical fact, are forward-looking statements including, without limitation, statements with respect to the Offering and JCHX Tranche; completion of a pre-feasibility study; and use of proceeds. Forward-looking statements include predictions, projections and forecasts and are often, but not always, identified by the use of words such as "anticipate", "believe", "plan", "estimate", "expect", "potential", "target", "budget" and "intend" and statements that an event or result "may", "will", "should", "could" or "might" occur or be achieved and other similar expressions and includes the negatives thereof.

Forward-looking statements are based on a number of assumptions and estimates that, while considered reasonable by management based on the business and markets in which the Company operates, are inherently subject to significant operational, economic, and competitive uncertainties, risks and contingencies. These include assumptions regarding, among other things: general business and economic conditions; the availability of additional exploration and mineral project financing; the supply and demand for inventories of, and the level and volatility of the prices of metals; relationships with strategic partners; the timing and receipt of governmental permits and approvals; the timing and receipt of community and landowner approvals; changes in regulations; political factors; the accuracy of the Company's interpretation of drill results; the geology, grade and continuity of the Company's mineral deposits; the availability of equipment, skilled labour and services needed for the exploration and development of mineral properties; currency fluctuations; and impact of the COVID-19 pandemic.

There can be no assurance that forward-looking statements will prove to be accurate and actual results, and future events could differ materially from those anticipated in such statements. Important factors that could cause actual results to differ materially from the Company's expectations include actual exploration results, interpretation of metallurgical characteristics of the mineralization, changes in project parameters as plans continue to be refined, future metal prices, availability of capital and financing on acceptable terms, general economic, market or business conditions, uninsured risks, regulatory changes, delays or inability to receive required approvals, unknown impact related to potential business disruptions stemming from the COVID-19 outbreak, or another infectious illness, and other exploration or other risks detailed herein and from time to time in the filings made by the Company with securities regulators, including those described under the heading "Risks and Uncertainties" in the Company's most recently filed MD&A. The Company does not undertake to update or revise any forward-looking statements, except in accordance with applicable law.
