

# Major Precious Metals Unaware of Any Material Change

29.04.2021 | [GlobeNewswire](#)

VANCOUVER, April 28, 2021 - [Major Precious Metals Corp.](#) ("Major Precious Metals" or the "Company") (CSE:SIZE | OTC:SIZYF | FRANKFURT:3EZ) wishes to confirm that management is unaware of any material change in the Company's operations that would account for the recent significant share price depreciation, following the successful report of its 5.5 million palladium equivalent indicated resource and 14.4 million palladium equivalent ounce inferred resource at Skaergaard.

The Company has been informed by its advisors that sophisticated techniques including spoofing, layering, wash trading, manipulation through multiple brokerage houses and the use of aggressive algorithms targeting the bid/offer designed to give the appearance of weakness in the Company's shares have been utilized in trading in the Company's securities.

Mining companies have been frequent targets of predatory short selling. Experts say that Canada's lax regulations around the practice have allowed abusive forms of short selling to flourish in the Canadian markets (<https://magazine.cim.org/en/news/2021/regulators-to-take-steps-against-short-selling-en/>). Ontario's capital markets Modernization Taskforce has targeted abusive short-selling in its final report, which recommended measures that specifically target various forms of short-selling, including naked short-selling ([https://www.investmentexecutive.com/newspaper/\\_news-newspaper/report-targets-abusive-short-sellers/](https://www.investmentexecutive.com/newspaper/_news-newspaper/report-targets-abusive-short-sellers/)). The Company hopes that amendments to relevant legislation is implemented soon to provide regulators with the necessary authority to prevent these predatory selling techniques.

## Forward-looking Information Statement

*This news release may contain certain "forward-looking statements" and "forward-looking information" within the meaning of applicable Canadian and United States securities laws. When used in this news release, the words "anticipate", "believe", "estimate", "expect", "target", "plan", "forecast", "may", "schedule" and other similar words or expressions identify forward-looking statements or information. These forward-looking statements or information may relate to the development of a mineral resource estimate for the Skaergaard Project, and other factors or information. Such statements represent the Company's current views with respect to future events and are necessarily based upon a number of assumptions and estimates that, while considered reasonable by the Company, are inherently subject to significant business, economic, competitive, political and social risks, contingencies and uncertainties. Many factors, both known and unknown, could cause results, performance or achievements to be materially different from the results, performance or achievements that are or may be expressed or implied by such forward-looking statements. The Company does not intend, and does not assume any obligation, to update these forward-looking statements or information to reflect changes in assumptions or changes in circumstances or any other events affecting such statements and information other than as required by applicable laws, rules and regulations.*
