Toronto, November 10, 2021 - Norvista Capital Corporation (TSXV: NVV) (the "Company") is pleased to provide investors an updated Net Asset Value ("NAV") per share for the month ending October 31, 2021. Management has estimated the NAV of the Company at C\$0.116 per share for October 31, 2021 (Table 1). At the end of October, the Company's price per share was C\$0.095.

Table 1: Norvista NAV Breakdown

Name	Ticker	Value	Value per Share
Rockcliff Metals Corp.	CSE: RCLF	\$5,078,100	\$0.072
Minera Alamos Inc.	TSXV: MAI	\$1,764,100	\$0.025
Great Bear Royalties Corp.	TSXV: GBRR	\$517,926	\$0.007
Other Investments & Working Capital		\$794,638	\$0.011
Total		\$8,154,765	\$0.116

Samuel Pelaez, the Company's President, CEO, CIO and Director stated: "I am happy to report that the Company was able to increase its NAV during the month of October. This past month saw tremendous downside volatility as some investors appear to have taken advantage of tax loss selling. A number of our investments provided positive returns on the absolute and relative to the market, which validated our investment selection process. "

Derek Macpherson, Executive Chairman stated: "I am happy to see Norvista's NAV increase month-over-month, primarily driven by a strong performance from Great Bear Royalties. Corporately, we remain focused on expanding our asset base and increasing our capital markets profile. The launch of the Olive Resource Capital Flow Through Limited Partnership and the planned name change are both positive steps forward for the Company."

Use of Non-GAAP Financial Measures:

This press release contains references to NAV or "net asset value per share" which is a non-GAAP financial measure. NAV is calculated as the value of total assets less the value of total liabilities divided by the total number of common shares outstanding as at a specific date. The term NAV does not have any standardized meaning according to GAAP and therefore may not be comparable to similar measures presented by other companies. There is no comparable GAAP financial measure presented in the Company's consolidated financial statements and thus no applicable quantitative reconciliation for such non-GAAP financial measure. The Company believes that the measure provides information useful to its shareholders in understanding the Company's performance, and may assist in the evaluation of the Company's business relative to that of its peers. This data is furnished to provide additional information and does not have any standardized meaning prescribed by GAAP. Accordingly, it should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP, and is not necessarily indicative of other metrics presented in accordance with GAAP. Existing NAV of the Company is not necessarily predictive of the Company's future performance or the NAV of the Company as at any future date.
