About Largo

Largo has a long and successful history as one of the world's preferred vanadium companies through the supply of its VPURE™ and VPURE+™ products, which are sourced from one of the world's highest-grade vanadium deposits at the Company's Maracás Menchen Mine in Brazil. Following the acquisition of vanadium redox flow battery technology in 2020, Largo is working to integrate its world-class vanadium products with its VCHARGE vanadium battery technology to support the planet's on-going transition to renewable energy and a low carbon future. Largo's VCHARGE batteries are uniquely capable of supporting reliability and grid stability as electricity systems move away from fossil-fuel generation. VCHARGE batteries are cost effective due to a variety of innovations, enabling an efficient, safe and ESG-aligned long duration solution that is fully recyclable at the end of its 25+ year lifespan.

Largo's common shares trade on the Nasdaq Stock Market and on the Toronto Stock Exchange under the symbol "LGO". For more information, please visit www.largoinc.com.
