

# PGS ASA: Contract Award in the Mediterranean

03.05.2022 | [Globenewswire Europe](#)

May 3, 2022, Oslo, Norway: PGS is awarded a Wide Azimuth 3D acquisition contract offshore Cyprus. Mobilization is scheduled to start mid-June and acquisition is expected to complete mid-August.

*"We are very pleased with this contract award, which is an important contribution to our vessel utilization during the summer season. The Eastern Mediterranean is a prolific gas region, and a well-known area to PGS. With our Ramform acquisition platform and GeoStreamer technology we will provide the client with high quality data,"* says President & CEO in PGS, Rune Olav Pedersen.

The award was included in the booked position disclosed in the Q1 2022 presentation.

The information included herein contains certain forward-looking statements that address activities, events or developments that the Company expects, projects, believes or anticipates will or may occur in the future. These statements are based on various assumptions made by the Company, which are beyond its control and are subject to certain additional risks and uncertainties. The Company is subject to a large number of risk factors including but not limited to the demand for seismic services, the demand for data from our multi-client data library, the attractiveness of our technology, unpredictable changes in governmental regulations affecting our markets and extreme weather conditions. For a further description of other relevant risk factors we refer to our Annual Report for 2021. As a result of these and other risk factors, actual events and our actual results may differ materially from those indicated in or implied by such forward-looking statements. The reservation is also made that inaccuracies or mistakes may occur in the information given above about current status of the Company or its business. Any reliance on the information above is at the risk of the reader, and PGS disclaims any and all liability in this respect.
