

Spruce Ridge Oil & Gas Partners with Local Operator to Upgrade Saskatchewan Oil Production

25.07.2022 | [The Newswire](#)

[Spruce Ridge Resources Ltd.](#) (TSXV:SHL) (OTC:SRCGF) ("Spruce Ridge" or the "Company") is pleased to announce that Spruce Ridge Oil & Gas Inc. a 100% owned subsidiary has signed a Letter of Intent with Original Oil Inc. ("OOI"), under which OOI will acquire 50% of the 4-section (? 1,036 hectares) lease near Unity, Saskatchewan, and 10 oil wells (of which 8 are now shut in) held by Spruce Ridge Oil & Gas Inc. ("SRO&G"). OOI is a Lloydminster-based, seasoned, successful oilfield operator in the area. OOI will become the operator and, at its own expense, will repair and rehabilitate all of the shut-in Unity wells with a view to reducing the high level of water incursion that has been an ongoing problem for SRO&G. Highlights of the agreement are:

- As part of the agreement, OOI will assume liability for closure, and SROG will be able to claim a refund of the \$554,630 security deposit that it paid under the Saskatchewan LLR program when it originally acquired the Unity leases;
- OOI will use its experience, local expertise and local connections to service, repair and rehabilitate all 8 of the shut-in wells at its own expense. These expenses will be paid back from Monthly Net Revenue (MNR) generated from these wells;
- OOI will pay SROG \$250,000, to be paid by dividing Monthly Net Revenue (MNR) 75% to SROG and 25% to OOI, until SROG is paid out, after which MNR will be divided 50/50.

John Ryan, CEO of Spruce Ridge, stated "by partnering with Original Oil we will benefit from its experience in low-cost, efficient oil production. We fully expect that the partnership will turn an underperforming asset into a source of significant cash flow for years to come."

Dustin Newman, P.Eng., President of Original Oil Inc., stated "The Spruce Ridge oil play at Unity Saskatchewan is an oil play that shows upside for oil production with low operating costs. The oil play in the Upper McLaren formation watered out prematurely and with its years of experience solving problems in heavy oil, Original Oil is confident that the water problem can be economically solved and higher oil production resumed. With the oil wells flowlined into a central disposal well, a main cost driver in oil production, water hauling and disposal is eliminated. Another main cost driver, propane costs, are also eliminated with the play since gas wells are tied into the oil wells, providing the fuel necessary to run the play."

The Unity operation also includes a water disposal well and ten shut-in gas wells. The gas wells have no access to market as are lined into Repsol's compressor, currently idle and awaiting higher gas prices. However, OOI's plan is to use our own gas to fuel the oil production, keeping our energy cost to a minimum. OOI will pay SRO&G \$1.00 per cubic metre to dispose of water from its other operations.

About Original Oil Inc.

Original Oil is a private junior oil producer in the Lloydminster, Saskatchewan Area. Using local expertise in heavy oil production, Original Oil was founded in 2015, acquired land positions for future drilling and suspended oil wells. Original Oil reactivated and increased oil production from the shut in wells to a high of 180 bbls/day in 2017. Original Oil survived the low and negative oil prices in 2018 - 2020, through low cost production and maintaining strong relationships in the heavy oil service industry. Original Oil has emerged from the low price environment with wells and land to reactivate and grow the company further.

About Spruce Ridge Resources Ltd.

Spruce Ridge holds a 100% interest in 26,640 hectares in Central Newfoundland, including:

- the 2,890-hectare Great Burnt VMS copper-gold property;
- the 4,575-hectare Pipestone nickel prospect and;
- the 19,175-hectare Foggy Pond property

Spruce Ridge currently holds 5,767,495 shares of Canada Nickel Company Inc. and 10,000,000 shares of [Noble Mineral Exploration Inc.](#)

Forward-Looking Statements

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release. This News Release includes certain "forward-looking statements" which are not comprised of historical facts. Forward-looking statements include estimates and statements that describe the Company's future plans, objectives or goals, including words to the effect that the Company or management expects a stated condition or result to occur. Forward-looking statements may be identified by such terms as "believes", "anticipates", "expects", "estimates", "may", "could", "would", "will", or "plan". Since forward-looking statements are based on assumptions and address future events and conditions, by their very nature they involve inherent risks and uncertainties. Although these statements are based on information currently available to the Company, the Company provides no assurance that actual results will meet management's expectations. Risks, uncertainties and other factors involved with forward-looking information could cause actual events, results, performance, prospects and opportunities to differ materially from those expressed or implied by such forward-looking information. Forward looking information in this news release includes, but is not limited to, the intention to complete the transactions, and the Company's objectives, goals or future plans. Factors that could cause actual results to differ materially from such forward-looking information include, but are not limited to an inability to complete the transactions, failure to identify mineral resources, failure to convert estimated mineral resources to reserves, delays in obtaining or failures to obtain required regulatory, governmental, environmental or other project approvals, political risks, inability to fulfill the duty to accommodate First Nations and other indigenous peoples, uncertainties relating to the availability and costs of financing needed in the future, changes in equity markets, inflation, changes in exchange rates, fluctuations in commodity prices, delays in the development of projects, capital and operating costs varying significantly from estimates and the other risks involved in the mineral exploration and development industry, and those risks set out in the Company's public documents filed on SEDAR. Although the Company believes that the assumptions and factors used in preparing the forward-looking information in this news release are reasonable, undue reliance should not be placed on such information, which only applies as of the date of this news release, and no assurance can be given that such events will occur in the disclosed time frames or at all. The Company disclaims any intention or obligation to update or revise any forward-looking information, whether as a result of new information, future events or otherwise, other than as required by law.

This news release does not constitute an offer to sell or a solicitation of an offer to buy nor shall there be any sale of any of the securities in any jurisdiction in which such offer, solicitation or sale would be unlawful, including any of the securities in the United States of America. The securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "1933 Act") or any state securities laws and may not be offered or sold within the United States or to, or for account or benefit of, U.S.

Persons (as defined in Regulation S under the 1933 Act) unless registered under the 1933 Act and applicable state securities laws, or an exemption from such registration requirements is available.
