

# Galleon Gold Receives Final Registration for the Mining Land Lease at its West Cache Project

26.07.2022 | [Newsfile](#)

Toronto, July 26, 2022 - [Galleon Gold Corp.](#) (TSXV: GGO) (the "Company" or "Galleon Gold") is pleased to report it has received the final documentation related to the registration of the mining lease for the West Cache Gold Project ("West Cache" or the "Project").

The granting of the new 21- year mining lease, #110033, is an important milestone for the Project. Lease status is required before mining activities such as infrastructure development and ore extraction can be conducted on the property. With the lease in hand, the Company will continue to complete the detailed engineering design work and baseline studies required for the bulk sample permit application.

R. David Russell, President and CEO of Galleon Gold commented, "Converting the mining claims to lease status has been a high priority for us and we are very pleased to have received the formal registration from the Province of Ontario. With this step completed we are on track to advance the project to the test mining phase."

Figure 1 shows the outline of the new mining lease in relation to the overall contiguous ground the Company holds in the Timmins mining camp.

About the West Cache Gold Project

The West Cache Gold Project is located 13 km west of Timmins Ontario and is serviced by Provincial Highway 101 and secondary access roads. It is situated in the Western Porcupine Gold Camp along the Destor-Porcupine Fault Zone ("DPFZ") within the Abitibi greenstone belt, approximately 7 km northeast of Pan American Silver's Timmins West Mine and 14 km southwest of Newmont's Hollinger Mine.

West Cache is an advanced-stage gold exploration project covering approximately 10,370 ha. The mining lease area hosts the current Mineral Resource Estimate near the center, with additional exploration targets to the north and south. The Mineral Resource Estimate is contained within the Porcupine Sedimentary Basin, a favourable litho-structural corridor with over 5 km of strike-length on the Property. Mineralization is open in all directions and at depth.
