

FenixOro Gold Corp. Announces Private Placement Financing

15.06.2022 | [GlobeNewswire](#)

TORONTO, June 15, 2022 - [FenixOro Gold Corp.](#) (CSE: FENX; OTCQB: FDVXF; Frankfurt: 8FD) is pleased to announce a non-brokered private placement (the "Private Placement") consisting of ("Units") at a price of \$0.18 per Unit for anticipated gross proceeds of between \$2 million and \$3 million. Each Unit will consist of one common share of the Company and one whole common share purchase warrant, with each warrant being exercisable for one additional common share at an exercise price of \$0.23 for a period of twenty-four months from the date of issuance. All securities issued pursuant to the Private Placement are subject to a statutory hold period of four months and one day from the date of issuance. The Company intends to use the net proceeds of the Private Placement to continue its Phase 2 drilling campaign to identify and drill out new discovery targets, particularly on the highly prospective southeastern block. Company Management and members of the Board of Directors are participating in the financing.

Closing of the Private Placement is subject to certain standard closing conditions, as well as the approval of the Canadian Securities Exchange. Closing is expected to be completed on or about June 30, 2022. Customary finders fees may be paid to third parties that assist with the Private Placement.

FenixOro CEO John Carlesso commented: "Following the recent discovery of the Prospera Vein in the Southern block, which hosts the highest grades of gold and silver ever recorded on the project, we are keen to test many key areas associated with this new, very prospective target. This follows the significant success of our Phase 1 and Phase 2 drilling programs where we intercepted 'Buritica style' mineralization, known for high grade gold in vein structures and wider zones of lower grade mineralization, in multiple locations across the northern block of the project. Our modelling exercise continues to expand to include many newly discovered vein structures over the course of the ongoing program, and we anticipate that the Prospera Vein will soon be incorporated."

About FenixOro Gold Corp.

FenixOro Gold Corp is a Canadian company focused on acquiring and exploring gold projects with world class exploration potential in the most prolific gold producing regions of Colombia. FenixOro's flagship property, the Abriaqui project, is the closest project to the Continental Gold/Zijin Buritica Mine. It is located 15 km to the west in Antioquia State at the northern end of the Mid-Cauca gold belt, a geological trend which has seen multiple large gold discoveries in the past 10 years including Buritica and Anglo Gold's Nuevo Chaquiro and La Colosa. As documented in "NI 43-101 Technical Report on the Abriaqui project Antioquia State, Colombia" (December 5, 2019), the geological characteristics of Abriaqui and Buritica are similar. Since the preparation of this report a Phase 1 drilling program has been completed at Abriaqui resulting in a significant discovery of a high grade, "Buritica style" gold deposit. A Phase 2 drilling program has recently commenced. FenixOro's VP of Exploration, Stuart Moller, led the discovery team at Buritica for Continental Gold in 2007-2011. At the time of its latest public report, the Buritica Mine contains measured plus indicated resources of 5.32 million ounces of gold (16.02 Mt grading 10.32 g/t) plus a 6.02 million ounce inferred resource (21.87 Mt grading 8.56 g/t) for a total of 11.34 million ounces of gold resources Buritica began formal production in November 2020 and has expected annual average production of 250,000 ounces at an all-in sustaining cost of approximately US\$600 per ounce. Resources, cost and production data are taken from Continental Gold's "NI 43-101 Buritica Mineral Resource 2019-01, Antioquia, Colombia, 18 March, 2019"). Continental Gold was recently the subject of a takeover by Zijin Mining in an all-cash transaction valued at C\$1.4 billion.
