

The Mosaic Company Announces Hurricane Ian Impacts

03.10.2022 | [ACCESS Newswire](#)

TAMPA, October 3, 2022 - [The Mosaic Company](#) (NYSE:MOS) announced today that North American Phosphates was negatively impacted by damage caused by Hurricane Ian.

Significant flooding and high winds were experienced throughout central Florida during the storm, and this caused modest damage to our facilities and to supporting infrastructure. As a result, early assessments indicate phosphate production could be down by approximately 200,000-250,000 tonnes, split roughly evenly between the third and fourth quarters of 2022. Repairs are expected to be completed over the next 1-2 weeks.

In addition to production impacts, the timing of shipments was also affected by the storm. Phosphates sales volumes in the third quarter are now expected to total 1.60-1.65 million tonnes, as port and rail closures delayed late third quarter shipments to October. Mosaic plans to provide further updates when it reports third quarter results.

As Mosaic completes repairs, [The Mosaic Company](#) Foundation is also donating \$100,000 to its most hard-hit operating areas. These funds will be used to support local recovery efforts in Florida's Hardee, Manatee and DeSoto counties. Prior to hurricane season beginning, Mosaic provided \$55,000 in storm preparation funds to organizations across Central Florida.??

In addition, [The Mosaic Company](#) Foundation contributed \$300,000 to an Employee-to-Employee Assistance Fund. This fund will be dispersed to employees who need financial assistance with hurricane recovery efforts throughout central Florida. The company will also double match any contributions made by Mosaic employees to this fund.

[The Mosaic Company](#) is one of the world's leading producers and marketers of concentrated phosphate and potash crop nutrients. Mosaic is a single-source provider of phosphate and potash fertilizers and feed ingredients for the global agriculture industry. More information on the company is available at www.mosaicco.com.

This release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements may include, but are not limited to, statements about proposed or pending future transactions or strategic plans and other statements about future financial and operating results. Such statements are based upon the current beliefs and expectations of [The Mosaic Company](#)'s management and are subject to significant risks and uncertainties. These risks and uncertainties include, but are not limited to: the economic impact and operating impacts of the coronavirus (Covid-19) pandemic, political and economic instability and changes in government policies in Brazil and other countries in which we have operations; the predictability and volatility of, and customer expectations about, agriculture, fertilizer, raw material, energy and transportation markets that are subject to competitive and other pressures and economic and credit market conditions; the level of inventories in the distribution channels for crop nutrients; the effect of future product innovations or development of new technologies on demand for our products; changes in foreign currency and exchange rates; international trade risks and other risks associated with Mosaic's international operations and those of joint ventures in which Mosaic participates, including the

performance of the Wa'ad Al Shamal Phosphate Company (also known as MWSPC), the future success of current plans for MWSPC and any future changes in those plans; difficulties with realization of the benefits of our long term natural gas based pricing ammonia supply agreement with CF Industries, Inc., including the risk that the cost savings initially anticipated from the agreement may not be fully realized over its term or that the price of natural gas or ammonia during the term are at levels at which the pricing is disadvantageous to Mosaic; customer defaults; the effects of Mosaic's decisions to exit business operations or locations; changes in government policy; changes in environmental and other governmental regulation, including expansion of the types and extent of water resources regulated under federal law, carbon taxes or other greenhouse gas regulation, implementation of numeric water quality standards for the discharge of nutrients into Florida waterways or efforts to reduce the flow of excess nutrients into the Mississippi River basin, the Gulf of Mexico or elsewhere; further developments in judicial or administrative proceedings, or complaints that Mosaic's operations are adversely impacting nearby farms, business operations or properties; difficulties or delays in receiving, increased costs of or challenges to necessary governmental permits or approvals or increased financial assurance requirements; resolution of global tax audit activity; the effectiveness of Mosaic's processes for managing its strategic priorities; adverse weather conditions affecting operations in Central Florida, the Mississippi River basin, the Gulf Coast of the United States, Canada or Brazil, and including potential hurricanes, excess heat, cold, snow, rainfall or drought; actual costs of various items differing from management's current estimates, including, among others, asset retirement, environmental remediation, reclamation or other environmental regulation, Canadian resources taxes and royalties, or the costs of the MWSPC; reduction of Mosaic's available cash and liquidity, and increased leverage, due to its use of cash and/or available debt capacity to fund financial assurance requirements and strategic investments; brine inflows at Mosaic's potash mines; other accidents and disruptions involving Mosaic's operations, including potential mine fires, floods, explosions, seismic events, sinkholes or releases of hazardous or volatile chemicals; and risks associated with cyber security, including reputational loss; as well as other risks and uncertainties reported from time to time in [The Mosaic Company's](#) reports filed with the Securities and Exchange Commission. Actual results may differ from those set forth in the forward-looking statements.
