

# Standard Uranium Upsizes Private Placement to C\$4.5 Million and Closes First Tranche for C\$2.1 Million

04.10.2022 | [GlobeNewswire](#)

VANCOUVER, Oct. 04, 2022 - [Standard Uranium Ltd.](#) ("Standard Uranium" or the "Company") (TSX-V: STND) (OTCQB: STTDF) is pleased to announce that, due to strong investor interest, it has elected to increase the maximum size of the non-brokered private placement announced by the Company on September 8, 2022 (the "Offering") from C\$3,500,000 to C\$4,500,000 in aggregate gross proceeds. Standard Uranium is also pleased to announce the closing of the first tranche of the Offering. Under the first tranche, the Company sold 9,173,259 units (each, a "Unit") at a price of C\$0.11 per Unit and 8,944,400 flow-through units (each, a "FT Unit", and collectively with the Units, the "Offered Securities") at a price of C\$0.13 per FT Unit for aggregate gross proceeds of C\$2,171,830.

Each Unit consists of one common share of the Company (each a "Unit Share") and one half of one common share purchase warrant (each whole warrant, a "Warrant"). Each FT Unit consists of one common share of the Company to be issued as a "flow-through share" within the meaning of the *Income Tax Act* (Canada) (each, a "FT Share") and one half of one Warrant. Each whole Warrant entitles the holder to purchase one common share of the Company (each, a "Warrant Share") at a price of C\$0.17 at any time on or before September 29, 2024.

The net proceeds raised from the Offering will be used for the exploration of the Company's projects and for working capital purposes. Proceeds from the sale of FT Shares will be used to incur "Canadian exploration expenses" as defined in subsection 66.1(6) of the *Income Tax Act* and "flow through mining expenditures" as defined in subsection 127(9) of the *Income Tax Act* ("Qualifying Expenditures"). Such proceeds will be renounced to the subscribers with an effective date not later than December 31, 2022, in the aggregate amount of not less than the total amount of gross proceeds raised from the issue of FT Shares.

"We would like to thank new and existing shareholders for supporting the Company while we continue exploration on our flagship Davidson River project and our other projects in the Athabasca Basin," said Jon Bey, Chief Executive Officer of the Company. "The close of the first tranche of the Offering gives the Company sufficient working and exploration capital to execute on our near-term goals. The continued strength of the uranium sector globally, and growing focus on nuclear energy as a reliable, environmentally friendly energy source puts Standard Uranium in an excellent position as we focus on raising additional funds with the second tranche of the Offering."

In connection with the closing of the first tranche of the Offering, the Company paid finder's fees to Red Cloud Securities Inc., and certain other arms-length brokerage firms, of C\$105,799 cash and 876,786 finder's warrants, each finder's warrant exercisable for one Unit at an exercise price of C\$0.11 per Unit until September 29, 2024.

The second and final tranche of the Offering is scheduled to close in the short term. Closing of the second tranche of the Offering is subject to certain conditions including, but not limited to, the receipt of all necessary approvals including the approval of the TSX Venture Exchange. All securities issued in the first tranche of the Offering are subject to a statutory hold period until January 30, 2023.

About Standard Uranium (TSX-V: STND)

*We find the fuel to power a clean energy future*

Standard Uranium is a mineral resource exploration company based in Vancouver, British Columbia. Since

its establishment, Standard Uranium has focused on the identification and development of prospective exploration stage uranium projects in the Athabasca Basin in Saskatchewan, Canada.

Standard Uranium's Davidson River Project, in the southwest part of the Athabasca Basin, Saskatchewan, is comprised of 21 mineral claims over 25,886 hectares. Davidson River is highly prospective for basement hosted uranium deposits yet remains relatively untested by drilling despite its location along trend from recent high-grade uranium discoveries. A copy of the NI 43-101 technical report titled "Updated Technical Report on the Davidson River Property, Northwest Saskatchewan, Canada" with an effective date of March 16, 2020, that summarizes the exploration on Davidson River is available for review under Standard Uranium's SEDAR profile ([www.sedar.com](http://www.sedar.com)).

#### Cautionary Statement Regarding Forward-Looking Statements

*This news release contains "forward-looking statements" or "forward-looking information" (collectively, "forward-looking statements") within the meaning of applicable securities legislation. All statements, other than statements of historical fact, are forward-looking statements and are based on expectations, estimates and projections as of the date of this news release. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions or future events or performance (often, but not always, identified by words or phrases such as "expects", "is expected", "anticipates", "believes", "Plans", "Projects", "estimates", "assumes", "intends", "strategy", "goals", "objectives", "forecasts", "budget", "schedule", "Potential", "Possible" or variations thereof or stating that certain actions, events, conditions or results "may", "could", "would", "should", "might" or "will" be taken, occur or be achieved, or the negative of any of these terms and similar expressions) are not statements of historical fact and may be forward-looking statements. Forward-looking statements include, but are not limited to, statements regarding: the timing and content of upcoming work programs; geological interpretations; timing of the Company's exploration programs; and estimates of market conditions.*

*Forward-looking statements are subject to a variety of known and unknown risks, uncertainties and other factors that could cause actual events or results to differ from those expressed or implied by forward-looking statements contained herein. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Certain important factors that could cause actual results, performance or achievements to differ materially from those in the forward-looking statements include, among others: general economic conditions in Canada and globally; industry conditions; governmental regulation of the mining industry, including environmental regulation; geological, technical and drilling problems; unanticipated operating events; competition for and/or inability to retain drilling rigs and other services; the availability of capital on acceptable terms; the need to obtain required approvals from regulatory authorities; stock market volatility; volatility in market prices for commodities; liabilities inherent in the mining industry; the development of the COVID-19 global pandemic; changes in tax laws and incentive programs relating to the mining industry. This list is not exhaustive of the factors that may affect the Company's forward-looking statements. There may be other factors that could cause actual events or results to differ from those expressed or implied by forward-looking statements contained herein. See the section entitled "Risk and Uncertainties" in the Company's management discussion and analysis for the fiscal year ended April 30, 2022, dated August 26, 2022 for additional risk factors that could cause actual events or results to differ from those expressed or implied by forward-looking statements contained herein.*

*Forward-looking statements are necessarily based upon a number of factors and assumptions that, if untrue, could cause actual events or results to differ from those expressed or implied by forward-looking statements contained herein. Forward-looking statements are based upon a number of estimates and assumptions that, while considered reasonable by the Company at this time, are inherently subject to significant business, economic and competitive uncertainties and contingencies that may cause the Company's actual financial results, performance, or achievements to be materially different from those expressed or implied herein.*

*Some of the material factors or assumptions used to develop forward-looking statements include, without limitation: the future price of uranium; anticipated costs and the Company's ability to raise additional capital if and when necessary; volatility in the market price of the Company's securities; future sales of the Company's securities; the Company's ability to carry on exploration and development activities; the success of exploration, development and operations activities; the timing and results of drilling programs; the discovery of mineral resources on the Company's mineral properties; the costs of operating and exploration expenditures; the Company's ability to identify, complete and successfully integrate acquisitions; the Company's ability to operate in a safe, efficient and effective manner; health, safety and environmental risks; the presence of laws and regulations that may impose restrictions on mining; employee relations; relationships with and claims by local communities and indigenous populations; availability of increasing costs associated with mining inputs and labour; the speculative nature of mineral exploration and development (including the risks of obtaining necessary licenses, permits and approvals from government authorities); uncertainties related to title to mineral properties; assessments by taxation authorities; fluctuations in general macroeconomic conditions.*

*The forward-looking statements contained in this news release are expressly qualified by this cautionary statement. Any forward-looking statements and the assumptions made with respect thereto are made as of the date of this news release and, accordingly, are subject to change after such date. The Company disclaims any obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required by applicable securities laws. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements.*

*Neither the TSX-V nor its Regulation Services Provider (as that term is defined in the policies of the TSX-V) accepts responsibility for the adequacy or accuracy of this release.*
