

Canadian Copper Announces a Non-Brokered Flow-Through Offering

05.12.2022 | [Newsfile](#)

Toronto, December 5, 2022 - [Canadian Copper Inc.](#) (CSE: CCI) ("Canadian Copper" or the "Company") announces that it has initiated a non-brokered, flow-through share offering (the "FT Offering") of up to 3,000,000 flow-through shares (the "FT Shares") of the Company at a price of C\$0.10 per FT Share with each FT Share consisting of one common share of the Company that qualifies as a flow-through share as defined in section 66(15) of the Income Tax Act (Canada). The FT Offering is for aggregate gross proceeds of up to \$300,000. The proposed April 7th, 2022 Federal Budget (please click [here](#)) introduced a new 30% Critical Mineral Exploration Tax Credit ("CMETC") for specified minerals, including copper and zinc to which this offering of Canadian Copper FT Shares should qualify.

The purpose and use for this proposed funding are as follows:

1. Continue to advance the Chester Copper Project ("Chester") through additional near deposit exploration work. Further, contribute to the development of regional exploration targets that may be generated by our recently completed 4000+ meter regional trenching program on the Chester Property.
2. Further de-risk the Chester deposit with metallurgical test work focused on the beneficiation understanding of the Central and East Zone. These areas contributed significantly to the Mineral Resource Estimate expansion announced on November 1st, 2022 (please click [here](#)).
3. Initiate preliminary ore sorting testing program. The purpose of this ore sorting program is to potentially improve the Chester copper ore body by increasing the value per ton of mill feed and reduce the amount of waste material required to mine the deposit. Further, this testing program will improve our understanding of potential toll milling opportunities and their economic viability.
4. Budget and funding dependent, begin regional prospecting at the Murray Brook West Project.

The proceeds of the FT Offering will be used to incur eligible "Canadian exploration expenses" that qualify as "flow-through mining expenditures" as both terms are defined in the Income Tax Act (Canada) (the "Qualifying Expenditures") related to the Company's projects in New Brunswick, Canada. The Company plans to incur Qualifying Expenditures on or before December 31, 2023 (or such other period as may be permissible under applicable tax legislation), and to renounce all the Qualifying Expenditures in favour of the subscribers of the FT Shares effective December 31, 2022.

It is the intention of the Company to incur, and renounce to subscribers, pursuant to the Subscription Agreement, expenses that will qualify for the CMETC, if the intended exploration program and proposed Qualifying Expenditures will qualify for the CMETC upon its enactment, and it is reasonable for the Company, in its determination, to comply with the requirements of the CMETC and incur and renounce the CMETC to the Subscriber.

Closing is expected on or about December 16, 2022, or such other date as the Company may determine. While the FT Offering is being affected by the Company on a non-brokered basis, the Company may pay finder's fees to arm's-length third parties consisting of a cash commission of up to 7% of the gross proceeds of the FT Offering. A statutory four month plus one day hold period will apply to all securities issued in connection with the FT Offering. The FT Offering is subject to CSE and regulatory approval.

This press release shall not constitute an offer to sell or the solicitation of an offer to buy the securities in the United States nor shall there be any sale of the securities in any jurisdiction in which such offer, solicitation or sale would be unlawful. The securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "1933 Act"), or any state securities laws and may not be offered or sold in the United States unless registered under the 1933 Act and any applicable securities laws of any

state of the United States or an applicable exemption from the registration requirements is available.

Cautionary and Forward-Looking Statements

This news release includes certain forward-looking statements and forward-looking information (collectively, "forward-looking statements") within the meaning of applicable Canadian securities legislation. All statements, other than statements of historical fact, included herein including, without limitation, statements regarding the proposed FT Offering, proposed use of proceeds, market and regulatory approval, anticipated closing date for the FT Offering, future exploration programs, anticipated exploration program results from exploration activities, and the anticipated business plans and timing of future activities of the Company, are forward-looking statements. Although the Company believes that such statements are reasonable, it can give no assurance that such expectations will prove to be correct. Often, but not always, forward looking information can be identified by words such as "pro forma", "plans", "expects", "will", "may", "should", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates", "believes", "potential" or variations of such words including negative variations thereof, and phrases that refer to certain actions, events or results that may, could, would, might or will occur or be taken or achieved. Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to differ materially from any future results, performance or achievements expressed or implied by the forward-looking statements. Such risks and other factors include, among others, statements as to the anticipated business plans and timing of future activities of the Company, including the Company's option to acquire properties under the Puma Option Agreement, the proposed expenditures for exploration work thereon, the ability of the Company to obtain sufficient financing to fund its business activities and plans, delays in obtaining governmental and regulatory approvals (including of the CSE), permits or financing, changes in laws, regulations and policies affecting mining operations, the Company's limited operating history, currency fluctuations, title disputes or claims, environmental issues and liabilities, as well as those factors discussed under the heading "Risk Factors" in the Company's prospectus dated May 24th, 2022 and other filings of the Company with the Canadian Securities Authorities, copies of which can be found under the Company's profile on the System for Electronic Document Analysis and Retrieval website at www.sedar.com. Readers are cautioned not to place undue reliance on forward-looking statements. The Company undertakes no obligation to update any of the forward-looking statements in this presentation or incorporated by reference herein, except as otherwise required by law.
