

Guanajuato Silver Expands Equity Financing to C\$8.5M

05.01.2023 | [ACCESS Newswire](#)

THIS NEWS RELEASE IS NOT FOR DISTRIBUTION TO U.S. NEWSWIRE SERVICES OR FOR DISSEMINATION IN THE UNITED STATES

VANCOUVER, January 5, 2023 - [Guanajuato Silver Company Ltd.](#) (the "Company" or "GSilver") (TSXV:GSVR)(AQUIS:GSVR)(OTCQX:GSVRF) announces that in response to additional demand, the Company is expanding its non-brokered private placement announced on December 12, 2022 (See GSilver news release - "Guanajuato Silver Announces L.I.F.E. Equity Financing"). Subject to acceptance of the TSX Venture Exchange, the private placement will now consist of a total of 20,032,682 units (the "Units") at a price of C\$0.425 per Unit for maximum gross proceeds of C\$8,513,889.85 million (the "Offering"). Each Unit consists of one common share of the Company (a "Share") and one-half (1/2) of one transferable share purchase warrant; each whole warrant (a "Warrant") exercisable to purchase an additional Share at C\$0.60 for a period of two years after closing.

On December 21, 2022, the Company closed an initial tranche of 15,952,196 Units for gross proceeds of C\$6,779,683 (see Guanajuato Silver news release - "Guanajuato Silver Closes C\$6.8 Million First Tranche Equity Financing"). It is anticipated that a second and final tranche for the balance of the Offering will be completed on January 10, 2023. The Units are being offered for sale by the Company pursuant to the Listed Issuer Financing Exemption under Part 5A of National Instrument 45-106 - Prospectus Exemptions in all provinces of Canada, except Quebec, and other qualifying jurisdictions such that the underlying Shares and Warrants will be "free-trading" under applicable Canadian securities laws. The Units will also be eligible for sale in the United States to "accredited investors" under the United States Securities Act of 1933, as amended (the "1933 Act") by way of private placement pursuant to available exemptions from the registration requirements of the 1933 Act, and resales of the Shares and Warrants will be permitted outside the United States pursuant to Regulation S under the 1933 Act.

The net proceeds of the Offering will be used to, among other things, ramp up production at the Company's existing mines in and about Guanajuato, Mexico including El Cubo, San Ignacio and Valenciana, expand and modernize the processing facilities at the Topia mine in Durango, Mexico, increase brownfields' exploration programs, and fund general and administrative expenses as more particularly described in the Company's amended and restated offering document dated December 31, 2022 (the "Amended Offering Document") prepared in connection with the expanded Offering. The Amended Offering Document related to this Offering can be accessed under the Company's profile at www.sedar.com and at the Company's website at www.gsilver.com.

This new release does not constitute an offer to sell or a solicitation of an offer to buy any of the securities in the United States. The securities have not been and will not be registered under the 1933 Act, or any state securities laws and may not be offered or sold within the United States or to or for the account or benefit of a U.S. person (as defined in Regulation S under the 1933 Act) unless registered under the 1933 Act and applicable state securities laws or an exemption from such registration is available.

About Guanajuato Silver

GSilver is a precious metals producer engaged in reactivating past producing silver and gold mines in central Mexico. The Company produces silver and gold concentrates from the El Cubo Mine, Valenciana Mines Complex, and the San Ignacio mine; all three mines are located within the state of Guanajuato, which has an established 480-year mining history. Additionally, the Company produces silver, gold, lead, and zinc concentrates from the Topia mine in northwestern Durango. With four operating mines and three processing facilities, Guanajuato Silver is one of the fastest growing silver producers in Mexico.

Forward-Looking Statements and Information

This news release contains forward-looking statements and information, which relate to future events or future performance including, but not limited to, the size of the Offering, the intended use of proceeds therefrom and the anticipated closing of a second and final tranche thereof, and the status of the Company as one of the fastest growing silver producers in Mexico.

Such forward-looking statements and information reflect management's current beliefs and expectations and are based on information currently available to and assumptions made by the Company; which assumptions, while considered reasonable by the Company, are inherently subject to significant operational, business, market, economic and regulatory uncertainties and contingencies. These assumptions include: our mineral resource estimates at El Cubo and El Pinguico and estimates of mineralized material at San Ignacio, Valenciana and Topia and the assumptions upon which they are based, including geotechnical and metallurgical characteristics of rock conforming to sampled results and metallurgical performance; available tonnage of mineralized material to be mined and processed; resource grades and recoveries; assumptions and discount rates being appropriately applied to production estimates; the ability of the Company to successfully integrate production from San Ignacio and Valenciana into the Company's existing mining and milling operations at El Cubo and the availability of excess processing and tailings capacity at El Cubo to accommodate same; the Company's ability to secure additional sources of mineralized material for processing, prices for silver, gold and other metals remaining as estimated; currency exchange rates remaining as estimated; availability of funds for the Company's projects and to satisfy current liabilities and obligations including debt repayments, capital expenditures, decommissioning and reclamation estimates; prices for energy inputs, labour, materials, supplies and services (including transportation) and inflation rates remaining as estimated; no labour-related disruptions; no unplanned delays or interruptions in scheduled construction and production; all necessary permits, licenses and regulatory approvals are received in a timely manner; and the ability to comply with environmental, health and safety laws. The foregoing list of assumptions is not exhaustive.

Readers are cautioned that such forward-looking statements and information are neither promises nor guarantees, and are subject to significant risks and uncertainties that may cause actual future results, level of activity, production levels, performance or achievements of GSilver to differ materially from those expected including, but not limited to, market conditions, availability of financing, future prices of gold, silver and other metals, currency rate fluctuations, actual results of exploration, development and production activities, actual resource grades and recoveries of silver, gold and other metals, availability of third party mineralized material for processing, rising inflation and interest rates, geopolitical conflicts including wars, unanticipated geological or structural formations and characteristics, environmental risks, operating risks, accidents, labor issues, equipment or personnel delays, delays in obtaining governmental or regulatory approvals and permits, inadequate insurance, and other risks in the mining industry. There are no assurances that the Company will successfully complete a second tranche of the Offering in whole or in part on the terms and in accordance with the timing set out herein. Further, there are no assurances that GSilver will be able to continue to increase production, tonnage milled and recoveries rates, improve grades and reduce costs at its existing mines to process mineralized materials to produce silver, gold and other concentrates in the

amounts, grades, recoveries, costs and timetable anticipated. GSilver's decision to process mineralized material from its mining projects is not based on a feasibility study of mineral reserves demonstrating economic and technical viability and therefore is subject to increased uncertainty and risk of failure, both economically and technically. Mineral resources and mineralized material that are not Mineral Reserves do not have demonstrated economic viability, are considered too speculative geologically to have the economic considerations applied to them, and may be materially affected by environmental, permitting, legal, title, socio-political, marketing, and other relevant issues. There are no assurances that the Company's projected production of silver, gold and other metals will be realized. In addition, there are no assurances that the Company will meet its production forecasts or generate the anticipated cash flows from operations to satisfy its scheduled debt payments or other liabilities when due or meet financial covenants to which the Company is subject or to fund its exploration programs and corporate initiatives as planned. There is also uncertainty about the continued spread and severity of COVID-19, the ongoing war in Ukraine and rising inflation and interest rates and the impact they will have on the Company's operations, supply chains, ability to access mining projects or procure equipment, supplies, contractors and other personnel on a timely basis or at all and economic activity in general. Accordingly, readers should not place undue reliance on forward-looking statements or information. All forward-looking statements and information made in this news release are qualified by these cautionary statements and those in our continuous disclosure filings available on SEDAR at www.sedar.com including the Company's annual information form for the year ended December 31, 2021. These forward-looking statements and information are made as of the date hereof and the Company does not assume any obligation to update or revise them to reflect new events or circumstances save as required by law.
