

# Copper Road Resources Inc. Announces Private Placement of \$150,000

17.10.2023 | [GlobeNewswire](#)

TORONTO, Oct. 16, 2023 - [Copper Road Resources Inc.](#) (TSXV: CRD) ("Copper Road" or the "Company") is pleased to announce a non-brokered private placement 1,500,000 flow-through units of the Company (each, an "FT Unit") at a price of \$0.10 per FT Unit for aggregate gross proceeds of \$150,000 (the "Offering"). Each FT Unit will consist of one common share of the Company to be issued as a "flow-through share" (each, an "FT Share") within the meaning of the *Income Tax Act* (Canada) (the "Tax Act") and one common share purchase warrant (each warrant, a "Warrant"). Each Warrant shall entitle the holder to purchase one common share of the Company at a price of \$0.15 at any time on or before that date which is 24 months after the closing date of the Offering.

The Company intends to use the gross proceeds of the Offering on the exploration of the Company's Copper Road project near Batchewana Bay, Ontario and for general working capital purposes. The gross proceeds from the issuance of the FT Shares will be used for "Canadian Exploration Expenses" (within the meaning of the Tax Act) (the "Qualifying Expenditures"), and that qualify for the federal 30% Critical Mineral Exploration Tax Credit announced in the federal budget on April 7, 2022, which will be renounced with an effective date no later than December 31, 2023 to the purchasers of the FT Units in an aggregate amount not less than the gross proceeds raised from the issue of the FT Shares. If the Qualifying Expenditures are reduced by the Canada Revenue Agency, the Company will indemnify each subscriber of FT Units for any additional taxes payable by such subscriber as a result of the Company's failure to renounce the Qualifying Expenditures.

The Offering is scheduled to close on or around the week of October 23, 2023, and is subject to certain conditions including, but not limited to, the receipt of all necessary approvals including the approval of the TSXV.

## About Copper Road

[Copper Road Resources Inc.](#) is a Canadian based explorer engaged in the acquisition, exploration and evaluation of properties for the mining of precious and base metals. The Company is exploring for large copper/gold deposits on the 21,000-hectare Batchewana Bay Project 80 km. north of Sault St. Marie, Ontario, Canada.

## Cautionary Note Regarding Forward Looking Information

*This news release contains "forward-looking information" and "forward-looking statements" (collectively, forward-looking statements) within the meaning of the applicable Canadian securities legislation. All statements, other than statements of historical fact, are forward-looking statements and are based on expectations, estimates and projections as at the date of this news release. Any statement that involves discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions, future events or performance (often but not always using phrases such as "expects", or "does not expect", "is*

expected", "anticipates" or "does not anticipate", "plans", "proposed", "budget", "scheduled", "forecasts", "estimates", "believes" or "intends" or variations of such words and phrases or stating that certain actions, events or results "may" or "could", "would", "might" or "will" be taken to occur or be achieved) are not statements of historical fact and may be forward-looking statements. In this news release, forward-looking statements relate to, among other things, the completion of the Offering, including receipt of all necessary regulatory approvals, the Company's objectives, goals and exploration activities conducted and proposed to be conducted at the Company's properties; future growth potential of the Company, including whether any proposed exploration programs at any of the Company's properties will be successful; exploration results; and future exploration plans and costs and financing availability.

These forward-looking statements are based on reasonable assumptions and estimates of management of the Company at the time such statements were made. Actual future results may differ materially as forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to materially differ from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors, among other things, include: the expected benefits to the Company relating to the exploration conducted and proposed to be conducted at the Company's properties; the receipt of all applicable regulatory approvals for the Offering; the completion of the Offering on the terms described herein, or at all; failure to identify any mineral resources or significant mineralization; the preliminary nature of metallurgical test results; uncertainties relating to the availability and costs of financing needed in the future, including to fund any exploration programs on the Company's properties; fluctuations in general macroeconomic conditions; fluctuations in securities markets; fluctuations in spot and forward prices of gold, silver, base metals or certain other commodities; fluctuations in currency markets; change in national and local government, legislation, taxation, controls, regulations and political or economic developments; risks and hazards associated with the business of mineral exploration, development and mining (including environmental hazards, industrial accidents, unusual or unexpected formations pressures, cave-ins and flooding); inability to obtain adequate insurance to cover risks and hazards; the presence of laws and regulations that may impose restrictions on mining and mineral exploration; employee relations; relationships with and claims by local communities and indigenous populations; availability of increasing costs associated with mining inputs and labour; the speculative nature of mineral exploration and development (including the risks of obtaining necessary licenses, permits and approvals from government authorities); the unlikelihood that properties that are explored are ultimately developed into producing mines; geological factors; actual results of current and future exploration; changes in project parameters as plans continue to be evaluated; soil sampling results being preliminary in nature and are not conclusive evidence of the likelihood of a mineral deposit; title to properties; and those factors described in the most recently filed management's discussion and analysis of the Company. Although the forward-looking statements contained in this news release are based upon what management of the Company believes, or believed at the time, to be reasonable assumptions, the Company cannot assure shareholders that actual results will be consistent with such forward-looking statements, as there may be other factors that cause results not to be as anticipated, estimated or intended. Accordingly, readers should not place undue reliance on forward-looking statements and information. There can be no assurance that forward-looking information, or the material factors or assumptions used to develop such forward-looking information, will prove to be accurate. The Company does not undertake to release publicly any revisions for updating any voluntary forward-looking statements, except as required by applicable securities law.

Neither the TSXV nor its Regulation Services Provider (as that term is defined in the policies of the TSXV) accepts responsibility for the adequacy or accuracy of this news release.
