[Dynacor Group Inc.](#) (TSX-DNG) (Dynacor or the "Corporation"), an international gold ore industrial corporation servicing ASMs (artisanal and small-scale miners), today announced that it had recorded unaudited gold sales of US\$26.9 million (C\$36.1 million)<sup>(1)</sup> for January 2024 compared to US\$8.6 million (C\$11.5 million) in January 2023 as the plant continued running at full capacity, processing 15,000 tonnes.

Sales increase of US\$18.3 million compared to January of last year is due to increases in sales volumes (+US\$16.3 million) and in sales prices (+US\$2.0 million). In January of last year, due to the political unrest situation, the Corporation had decided from January 16, to postpone all exports until February 2023. Additionally, due to a last-minute flight cancellation, the last prepared 2023 export was postponed in the new year and consequently is included in the January 2024 sales.

In January, the average selling price of gold was US\$2,030 per ounce, compared to US\$1,883 per ounce last year.
