

Namibia Critical Metals Announces Results of Annual General Meeting of Shareholders

16.05.2024 | [ACCESS Newswire](#)

HALIFAX, May 16, 2024 - [Namibia Critical Metals Inc.](#) ("Namibia Critical Metals" or the "Company" or "NCMI") (TSXV:NMI)(OTCQB:NMREF) announces the results of the Company's Annual General Meeting of Shareholders held on May 16, 2024 (the "Meeting"). Shareholders holding 61.92% of the shares were represented in person or by proxy at the Meeting. All the matters submitted to the shareholders, as set out in the Notice of Meeting and Information Circular dated April 10, 2024, were voted in favour, including: (a) Election of Directors to the Board of the Company as listed below; (b) the approval of the stock option plan, as amended, pursuant to which the Company may grant stock options up to 10% of its issued and outstanding common shares at the time of grant; and (c) the appointment of PricewaterhouseCoopers LLP as the auditors of the Company for the ensuing year.

Messrs. Adrian Hickey, Darrin Campbell, William Price and Steve Herlihy were re-elected to serve as directors of the Company, with the percentage of votes cast for each director as follows:

Nominee	Votes For	% For	Votes Withheld	% Withheld
Adrian T. Hickey	121,239,738	99.32%	0	0
Steve Herlihy	121,239,738	99.32%	0	0
Darrin Campbell	121,241,738	99.32%	0	0
William L. Price	121,131,738	99.23%	0	0

On behalf of the Board of Directors,
[Namibia Critical Metals Inc.](#)
Darrin Campbell, President

About Namibia Critical Metals Inc.

NMI is developing the Tier-1 Heavy Rare Earth Project, Lofdal, a globally significant deposit of the heavy rare earth metals dysprosium and terbium. Demand for these critical metals used in permanent magnets for electric vehicles, wind turbines and other electronics is driven by innovations linked to energy and technology transformations. The geopolitical risks associated with sourcing many of these metals has become a repeated concern for manufacturers and end users. Namibia is a proven and stable mining jurisdiction.

The Lofdal Project is fully permitted with a 25-year Mining License and is under a Joint Venture Agreement with Japan Organization for Metals and Energy Security ("JOGMEC").

The Company filed a robust updated PEA for "Lofdal 2B-4" on November 14, 2022, with a post-tax NPV of USD\$391 million and an annual IRR of 28% with a capital expenditure of USD\$207 million. The project is projected to generate a life of mine nominal cash flow of USD\$698 million post-tax over a 16-year mine life.

About Japan Organization for Metals and Energy Security (JOGMEC) and the JV

JOGMEC is a Japanese government independent administrative agency which seeks to secure stable resource supplies for Japan. JOGMEC has a strong reputation as a long term, strategic partner in mineral projects globally. JOGMEC facilitates opportunities with Japanese private companies to secure supplies of natural resources for the benefit of the country's economic development.

Rare earths are of critical importance to Japanese industrial interests and JOGMEC has extensive experience with all aspects of the sector. JOGMEC provided Lynas with USD\$250,000,000 in loans and equity in 2011 to ensure supplies of the Light Rare Earths metals suite to the Japanese industry.

Namibia Critical Metals owns a 95% interest in the Lofdal project with the remaining 5% held for the benefit of historically disadvantaged Namibians. The terms of the JOGMEC joint venture agreement with the Company stipulate that JOGMEC provides C\$3,000,000 in Term 1 and C\$7,000,000 in Term 2 to earn a 40% interest in the Lofdal project. Term 3 calls for a further C\$10,000,000 of expenditures to earn an additional 10% interest. JOGMEC can also purchase another 1% for C\$5,000,000 and has first right of refusal to fully fund the project through to commercial production and to purchase all production at market prices. The collective interests of NMI and historically disadvantaged Namibians cannot be diluted below a 26% carried working interest upon payment of C\$5,000,000 to JOGMEC for the dilution protection. NMI may elect to participate up to a maximum of 44% by funding pro rata after the earn in period is completed.

To date, JOGMEC has completed Term 2 and earned a 40% interest by reaching the C\$10 million expenditure requirement. Total approved project funding to date is C\$14,541,000 of the \$20,000,000 Earn-In requirement to reach 50% interest.

Darrin Campbell, President, has reviewed and approved this press release.
