

Delta Options Band-Ore Gold Property and Further Expands Its Land Position in Thunder Bay, Ontario

23.05.2024 | [Newsfile](#)

Property Includes Historical Gold Resource

Kingston, May 23, 2024 - [Delta Resources Ltd.](#) (TSXV: DLTA) (OTC PINK: DTARF) (FSE: 6G01) ("Delta" or "The Company") is pleased announce that it has entered into an agreement with [Golden Share Resources Corp.](#) ("Golden Share") acquiring the exclusive rights to earn a 100% interest in the Band-Ore property (the "Property"). The Bandore property is located approximately two (2) kilometres west of the Delta-1 Property which in turn lies 50 kilometres west of Thunder Bay, Ontario. The Property hosts two historic high-grade gold resources that are not considered National Instrument 43-101 compliant¹.

TABLE 1: Band-Ore Historical Resources

The 10 km long property covers approximately 2,115 hectares and comprises 16 patented mining claims, one mining claim lease, and 109 staked mining claims in Hagey and Conacher Townships of Ontario, on strike with the Delta-1 gold mineralization (see Figure 1). Both the Main Zone and the No. 4 Zone are open at depth and along strike.

André Tessier, President, and CEO commented: "This is an important acquisition for Delta, adding another 21 square kilometres of very prospective ground to our Delta-1 property but also adding to Delta's growing gold inventory in the area. Delta's team is looking forward to applying its exploration criteria to this new property."

The terms of the agreement are as follows:

On signing: \$100,000 in cash

Anniversary 1: \$150,000 in cash and \$100,000 in Delta shares

Anniversary 2: \$150,000 in cash and \$100,000 in Delta shares

Anniversary 3: \$200,000 in cash and \$100,000 in Delta shares

Anniversary 4: \$300,000 in cash and \$200,000 in Delta shares

Anniversary 5: \$400,000 in cash and \$200,000 in Delta shares

*All share prices are based on 20 day VWAP.

Golden Share will retain a 2% Net Smelter Return Royalty ("NSR"). Delta will have the option to buyback a 1.0% NSR at anytime for \$3M and will have a right of first refusal on the second 1.0% NSR.

If Delta defines a NI-43-101 resource on the Property after earn-in, Golden Share will be entitled to a bonus of \$500,000 for an estimate of 500,000 gold ounces up to 1,000,000 ounces and a bonus of \$1,000,000 for an estimate of greater than 1,000,000 gold ounces. There are no work commitments on the property.

With this option, Delta now controls an area of 152 square-kilometres in the central-north portion of the Shebandowan Greenstone Belt, which includes the gold-endowed, crustal-scale Shebandowan structural zone that hosts Delta's Eureka Gold Zone.

The agreement is subject to regulatory approval.

Qualified Person

Andre Tessier, P. Eng and P.Geo, and President and CEO of [Delta Resources Ltd.](#), acted as the Qualified Person for this press release and has reviewed its content.

About Delta Resources Limited

[Delta Resources Ltd.](#) is a Canadian mineral exploration company focused on growing shareholder value through the exploration of two very high-potential gold and base-metal projects in Canada.

DELTA-1 is Delta's flagship project, where the company is building on a large gold inventory 50 kilometres west of Thunder Bay, Ontario, at surface and adjacent to the Trans-Canada highway. To date, the gold mineralization is defined over a strike length of 2.0 km, from surface to a vertical depth of 250 m. Highlights include drill intercepts such as 5.92 g/t Au over 31 m (incl. 14.8 g/t Au over 11.9 m), and 1.79 g/t Au over 128.5 m. The property covers 152 square kilometres and Delta has identified a 5 km long corridor of intense alteration and deformation at the property, on strike with the gold zone, that has yet to be thoroughly explored.

The DELTA-2 property covers 205 square kilometres in the prolific Chibougamau District of Quebec. The property holds excellent potential for gold-rich polymetallic VMS deposits as well as hydrothermal-gold deposits. Delta targets VMS deposits such as the LeMoine past producer where 0.76 Mt were mined between 1975 and 1983, grading 9.6% Zn, 4.2% Cu, 4.5 g/t Au and 84 g/t Ag.

Note 1: The Band-Ore mineral resource estimates are considered to be 'historical' in nature and are not compliant with National Instrument 43-101. Neither Golden Share nor Delta have done sufficient work to classify the historical estimates as current mineral resources or mineral reserves in accordance with NI 43-101, however the data is relevant as it is indicative of potential mineralization on the Property. The Band-Ore Main Zone historical resource comes from the Report on Shebandowan Property Conacher Township Thunder Bay Mining Division Ontario for Band-Ore Resources Ltd., effective date February 15, 2006 with lead author David Gunning, which references the following reports: Report on Property of Band-Ore Gold Mines Ltd., Thunder Bay, Ontario, with lead author J.S. Crosscombe, Mining Engineer, effective date May 15, 1947. The Band-Ore No. 4 Zone historical resource comes from 1982 Diamond Drilling Report and Pre-Evaluation Study on the Band-Ore Option Conacher Township Ontario for Mattagami Lake Exploration Ltd. with lead author Karl J. Huska, December 1982.
