

Alta Copper Adds to Management Team

18.11.2024 | [ACCESS Newswire](#)

VANCOUVER, November 18, 2024 - [Alta Copper Corp.](#) (TSX:ATCU)(OTCQX:ATCUF)(BVL:ATCU) ("Alta Copper" or the "Company") is pleased to provide the following updates:

Appointment of Aldo Bendezú as Principal Geologist and Project Manager

Mr. Bendezú has been appointed as Principal Geologist and Project Manager of the Company's Peruvian subsidiary, Cañariaco Copper Peru S.A.C.

Mr. Bendezú is a geologist with an engineering degree from the Universidad Nacional de Ingeniería, Perú, and a PhD completed at the University of Geneva, Switzerland, focused on the porphyry copper system of Morococha-Toromocho, central Perú. Aldo Bendezú brings over 15 years of experience in mineral exploration, he has extensive expertise in greenfield and brownfield exploration, working with companies such as Compañía Minas Buenaventura, Placer Dome as well as other senior companies on epithermal Au, porphyry Cu, cordilleran polymetallic, and IOCG deposits. Additionally, he served as Principal Geologist for more than five years with prospecting companies Terra Pristina and Q'inti Asientos Minerales, where he generated and explored approximately 20 high-quality prospects in southern Peru containing strategic and critical metals. In addition to his corporate roles, Aldo has also served as a consultant, providing technical guidance for exploration projects and contributing to target generation for several Peruvian companies.

Giulio T. Bonifacio, CEO and Executive Chair of Alta Copper, commented: "We are extremely pleased that Aldo will be joining our team as we advance toward our drilling program in 2025. Aldo's extensive knowledge of porphyry copper system will prove invaluable as we start drilling several high priority drill targets identified in zones of high-grade copper mineralization extending to depth in Cañariaco Norte which are not included in the current mineral resource estimate. Additionally, Cañariaco Sur and Quebrada Verde porphyries will be drilled targeting extensions of known mineralization laterally and at depth and near surface geochemical anomalies and mineralization exposed in creek beds."

Alta Copper Launches Updated Website

We are pleased to report that we have updated our company's website www.altacopper.com and corporate presentation. Our primary objective during the redesign process was to create a user-friendly website to navigate all platforms and devices as the previous version of the website was outdated.

We encourage our investors to review our website and the Corporate presentation available which will be available on November 18 at:
