

# XXIX Metal Corp. Announces Ticker Symbol Change to XXIX

11.12.2024 | [NewsDirect](#)

**New Stock Ticker Symbol: QCCU will become XXIX on the TSXV as of market open on December 11, 2024.**

Toronto, Dec. 11, 2024 - [XXIX Metal Corp.](#) (TSXV: XXIX) (OTCQB: QCCUF) ("XXIX" or the "Company") is pleased to announce that effective today the Company's common shares ("Common Shares") will officially begin trading on the TSX Venture Exchange as "XXIX Metal Corp." and its stock ticker symbol will change from "QCCU" to "XXIX".

"With the acquisition and rebranding now complete, we are excited to move forward as XXIX, and continue to develop both Opemiska and Thierry, enhancing their scale and establishing the Company as one of Eastern Canada's largest copper developers with a multi-billion-pound resource portfolio," said Stephen Stewart, CEO of XXIX.

No action is required by XXIX shareholders in connection with this ticker symbol change. In connection with the name change, the following new CUSIP 901320101 and ISIN CA9013201012 numbers have been assigned to the Common Shares. The ticker symbol change is in relation to the company rebranding as XXIX Metal Corp., reflecting its recent acquisition of Cuprum Corp. and its Thierry copper project, located in Pickle Lake, Ontario.

## About XXIX Metal Corp.

XXIX is advancing its Opemiska and Thierry Copper projects, two significant Canadian copper assets. The Opemiska Project, Canada's highest-grade copper resource, spans 13,000 hectares in Quebec's Chapais-Chibougamau region, with strong infrastructure and nearby access to the Horne Smelter. A January 2024 resource update reported a 16% increase in contained Copper Equivalent (CuEq) and a 10% grade boost, including 87.3 million tonnes at 0.93% CuEq (Measured & Indicated) and additional Out of Pit resources.

The Thierry Project hosts two past-producing open pits that transitioned to underground mining-producing 5.8Mt @ 1.13% Cu, 0.14% Ni between 1976 - 1982 by UMEX Inc. Historically, copper concentrate was shipped to the Horne Smelter in Rouyn-Noranda, QC. Significant infrastructure is already in place, with the Thierry property being accessible via all-season road, an airport within 5km, a provincial power grid within 8km, and nearby rail. With these two high-potential projects, the Company has solidified its position as a key player in the Canadian copper sector, and has established itself as one of Eastern Canada's largest copper developer.
