

Primary Hydrogen Partners With INRS on Natural Hydrogen in Canada

14.04.2025 | [ACCESS Newswire](#)

CALGARY, April 14, 2025 - [Primary Hydrogen Corp.](#) (TSXV:HDRO)(FRA:83W0)(OTCQB:HNATF) (the "Company" or "Primary"), a leading exploration company focused on identifying and developing natural hydrogen resources, is pleased to announce the partnership with Institut national de la recherche scientifique ("INRS") to advance natural hydrogen exploration in Canada. The Company has partnered with INRS in connection with a research grant to study hydrogen sampling techniques.

"INRS is at the forefront of the scientific advancement of natural hydrogen in Canada, following the publication of six research reports last year" commented Benjamin Asuncion, CEO of Primary Hydrogen. "Partnership with INRS to pioneer hydrogen exploration allows us to leverage both the compendium of expertise and external funding to explore our Canadian asset portfolio."

The partnership will allow fine-tuning and field-validating soil gas sampling techniques that were developed by the INRS team in the laboratory. These methods developed are critical to ensure that the scientific and exploration community reports robust and comparable data. In addition, the partnership will allow field measurement of soil gas H₂ in promising geological settings in Eastern Canada, with the project anticipated to be completed in Q2/2025.

About INRS

The Institut National de la Recherche Scientifique (INRS) is a leading research and training institution in Canada, dedicated to advancing scientific knowledge and technological innovation. As part of the Université du Québec network, INRS focuses on applied and fundamental research in strategic sectors, including energy, environment, health, and advanced technologies. Through interdisciplinary collaboration and cutting-edge facilities, INRS fosters innovation that addresses societal challenges and supports sustainable development. CAUTIONARY NOTE REGARDING FORWARD-LOOKING INFORMATION

This news release contains "forward-looking information" and "forward-looking statements" within the meaning of applicable securities legislation. The forward-looking statements herein are made as of the date of this news release only. Often, but not always, forward-looking statements can be identified by the use of words such as "plans", "expects", "is expected", "budgets", "scheduled", "estimates", "forecasts", "predicts", "projects", "intends", "targets", "aims", "anticipates" or "believes" or variations (including negative variations) of such words and phrases or may be identified by statements to the effect that certain actions "may", "could", "should", "would", "might" or "will" be taken, occur or be achieved. Forward-looking information in this news release includes, but is not limited to, the anticipated effects of the Shares' quotation on the FSE and OTCQB.

Although the Company believes, in light of the experience of their officers and directors, current conditions and expected future developments and other factors that have been considered appropriate, that the expectations reflected in the forward-looking statements and information in this news release are reasonable, undue reliance should not be placed on them because the parties can give no assurance that such statements will prove to be correct. Such statements and information reflect the current view of the Company. There are risks and uncertainties that may cause actual results to differ materially from those contemplated in those forward-looking statements and information.

Forward-looking statements are based on certain material assumptions and analysis made by the Company and the opinions and estimates of management as of the date of this news release. These forward-looking statements are subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of the Company to be materially different from those expressed or implied by such forward-looking statements or forward-looking information, including, but not limited to, the risk that the quotation of the Shares on the FSE and the OTCQB do not have the anticipated effects, inherent risks associated with the mining industry and the results of exploration activities and development of mineral properties, stock market volatility and capital market fluctuations, general market and industry conditions, as well as those risk factors discussed in the Company's most recently filed management's discussion and analysis filed under the Company's SEDAR+ profile at www.sedarplus.ca. Although management of the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements or forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements and forward-looking information. Readers are cautioned that reliance on such information may not be appropriate for other purposes. The Company does not undertake to update any forward-looking statement, forward-looking information or financial outlook that are incorporated by reference herein, except in accordance with applicable securities laws.
