^{*} A Non-GAAP supporting schedule is included with the statements and schedules in this press release.

Robert W. Eifler, President and Chief Executive Officer of Noble, stated "Our strong first quarter financial results and recontract awards have demonstrated the effectiveness of our First Choice OffshoreSM strategy amid prevalent macroecon volatility. Moreover, the booking of over 15 rig years of new contract awards over the past several weeks underscores to our customers' long-term commitments offshore, as well as Noble's place as a trusted service provider for these high drilling campaigns."

First Quarter Results

Contract drilling services revenue for the first quarter of 2025 totaled \$832 million compared to \$882 million in the fourth 2024, with the sequential decrease driven primarily by the benefit received in the fourth quarter of 2024 from the Noble early termination fee. Contract drilling services costs for the first quarter were \$462 million, down from \$527 million in the quarter of 2024. Net income increased to \$108 million in the first quarter of 2025, up from \$97 million in the fourth quarter and Adjusted EBITDA increased to \$338 million in the first quarter of 2025, up from \$319 million in the prior quarter. Ne provided by operating activities in the first quarter of 2025 was \$271 million, capital expenditures were \$114 million offs proceeds from insurance claims of \$15 million, and free cash flow (non-GAAP) was \$173 million.

Balance Sheet & Capital Allocation

The Company's balance sheet as of March 31, 2025, reflected total debt principal value of \$1.98 billion and cash (and equivalents) of \$304 million.

29.04.2025 Seite 1/13

The Company repurchased approximately 737 thousand shares in the first quarter for \$20 million. On April 28, 2025, Noble's Board of Directors approved an interim quarterly cash dividend on our ordinary shares of \$0.50 per share for the second quarter of 2025. The \$0.50 per share dividend is expected to be paid on June 18, 2025, to shareholders of record at close of business on June 5, 2025. Future quarterly dividends and other shareholder returns will be subject to, amongst other things, approval by the Board of Directors and may be modified as market conditions dictate.

Operating Highlights and Backlog

Noble's marketed fleet of twenty-five floaters was 80% contracted during the first quarter, compared with 74% in the prior quarter. Recent backlog additions since last quarter have added 15 rig years of total floater backlog, materially enhancing contract coverage over the next several years. Recent dayrate fixtures for Tier-1 drillships have been in the low-to-high \$400,000s, with 6th generation floater fixtures between the low \$300,000s to mid \$400,000s.

Utilization of Noble's thirteen marketed jackups was 74% in the first quarter, versus 82% utilization during the prior quarter. Leading edge dayrates for harsh environment jackups in the North Sea have remained stable, albeit with limited fixtures recently.

Subsequent to last quarter's earnings press release, new contracts with total contract value of between \$2.2 to \$2.7 billion (including additional services and mobilization payments, but excluding unexercised extension options) include the following:

- Noble Voyager and a second Noble V-class 7th generation drillship to be named have each been awarded 4-yea with Shell in the U.S. Gulf. The two contracts, scheduled to commence in mid 2026 and Q4 2027, each include a value of \$606 million (inclusive of upgrades and services but excluding additional fees for mobilization and demol Furthermore, there is the potential to earn performance incentive compensation of up to a maximum of 20% of the The performance incentive is not guaranteed and is contingent upon achieving specific performance targets.
- Noble Developer and a Noble V-class 7th generation drillship to be named in the coming months have each beer 16-well (estimated 1,060 days) contracts with TotalEnergies in Suriname which are expected to commence between and Q1 2027. Together, the firm revenue of the two contracts is \$753 million. These contracts allow for an additional million in revenue tied to collective operational performance program with TotalEnergies.
- Noble Discoverer received a 390-day extension from Petrobras in Colombia via option exercise, extending the rig 2025 to August 2026 at its existing dayrate.
- Noble Regina Allen received a one-well contract in Suriname with estimated duration of 65 days expected to com 2025 with a total contract value estimated at \$17.7 million including mobilization and demobilization fees.
- Noble Viking received a contract from Brunei Shell Petroleum for one well plus one option, scheduled to commen 2025 with an estimated firm contract value of \$14 million.
 Noble Intrepid has been awarded a one-well contract with DNO Norge in Norway that is expected to commence in the contract with DNO Norge in Norway that is expected to commence in the contract with DNO Norge in Norway that is expected to commence in the contract with DNO Norge in Norway that is expected to commence in the contract with DNO Norge in Norway that is expected to commence in the contract with DNO Norge in Norway that is expected to commence in the contract with DNO Norge in Norway that is expected to commence in the contract with DNO Norge in Norway that is expected to commence in the contract with DNO Norge in Norway that is expected to commence in the contract with DNO Norge in Norway that is expected to commence in the contract with DNO Norge in Norway that is expected to commence in the contract with DNO Norge in Norway that is expected to commence in the contract with DNO Norge in Norway that is expected to commence in the contract with DNO Norge in Norway that is expected to commence in the contract with DNO Norge in Norway that is expected to commence in the contract with the contract with DNO Norge in Norway that it is expected to commence in the contract with DNO Norge in Norway that it is expected to commence in the contract with DNO Norge in Norway that it is expected to commence in the contract with the contract with DNO Norge in Norway that it is expected to commence in the contract with DNO Norge in Norway that it is expected to commence in the contract with the cont
- 2025 with estimated duration of 50-90 days.

Assuming 40% of available performance revenue realized on a combined basis under recent long-term contracts, Noble's backlog as of April 28, 2025, stands at \$7.5 billion. Backlog excludes mobilization and demobilization revenue.

Outlook

For the full year 2025, Noble maintains the previously issued guidance ranges for Total Revenue between \$3,250 to \$3,450 million, Adjusted EBITDA in the range of \$1,050 to \$1,150 million, and Capital Expenditures (net of reimbursements) between \$375 to \$425 million.

Commenting on Noble's outlook, Mr. Eifler stated, "Our recent commercial success and 30% sequential increase in backlog have greatly enhanced our visibility through 2030. We remain highly focused on delivering safe and efficient operations for our customers, building strategic backlog, optimizing costs, and producing differentiated free cash flow and return of capital for our shareholders."

Due to the forward-looking nature of Adjusted EBITDA and Capital Expenditures (net of reimbursements), management cannot reliably predict certain of the necessary components of the most directly comparable forward-looking GAAP measure, net income and capital expenditures, respectively. Accordingly, the Company is unable to present a quantitative reconciliation of such forward-looking non-GAAP financial measure to the most directly comparable forward-looking GAAP financial measure without unreasonable

29.04.2025 Seite 2/13

effort. The unavailable information could have a significant effect on Noble's full year 2025 GAAP financial results.

Conference Call

Noble will host a conference call related to its first quarter 2025 results on Tuesday, April 29, 2025, at 8:00 a.m. U.S. Central Time. Interested parties may dial +1 800-715-9871 and refer to conference ID 31391 approximately 15 minutes prior to the scheduled start time. Additionally, a live webcast link will be available on the Investor Relations section of the Company's website. A webcast replay will be accessible for a limited time following the call.

About Noble Corporation plc

Noble is a leading offshore drilling contractor for the oil and gas industry. The Company owns and operates one of the most modern, versatile, and technically advanced fleets in the offshore drilling industry. Noble and its predecessors have been engaged in the contract drilling of oil and gas wells since 1921. Noble performs, through its subsidiaries, contract drilling services with a fleet of offshore drilling units focused largely on ultra-deepwater and high specification jackup drilling opportunities in both established and emerging regions worldwide. Additional information on Noble is available at www.noblecorp.com.

Forward-looking Statements

This communication includes "forward-looking statements" within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act, as amended. All statements other than statements of historical facts included in this communication are forward looking statements, including those regarding future guidance, including revenue, adjusted EBITDA, the offshore drilling market and demand fundamentals, realization and timing of integration synergies, costs, the benefits or results of acquisitions or dispositions such as the acquisition of Diamond Offshore Drilling Inc. (the "Diamond Transaction"), free cash flow expectations, capital expenditures, capital allocation expectations, including planned dividends and share repurchases, contract backlog, including projections for the achievement of performance incentives, rig demand, expected future contracts, options or extensions on existing contracts, anticipated contract start dates, major project schedules, dayrates and duration, any asset sales or the retirements of rigs, access to capital, fleet condition and utilization, timing and amount of insurance recoveries and 2025 financial guidance. Forward-looking statements involve risks, uncertainties and assumptions, and actual results may differ materially from any future results expressed or implied by such forward-looking statements. When used in this communication, or in the documents incorporated by reference, the words "guidance," "anticipate," "believe," "continue," "could," "estimate," "expect," "intend," "may," "might," "on track," "plan," "possible," "potential," "predict," "project," "should," "would," "achieve," "shall," "target," "will" and similar expressions are intended to be among the statements that identify forward-looking statements. Although we believe that the expectations reflected in such forward-looking statements are reasonable, we cannot assure you that such expectations will prove to be correct. These forward-looking statements speak only as of the date of this communication and we undertake no obligation to revise or update any forward-looking statement for any reason, except as required by law. Risks and uncertainties include, but are not limited to, those detailed in Noble's most recent Annual Report on Form 10-K, Quarterly Reports Form 10-Q and other filings with the U.S. Securities and Exchange Commission. We cannot control such risk factors and other uncertainties, and in many cases, we cannot predict the risks and uncertainties that could cause our actual results to differ materially from those indicated by the forward-looking statements. You should consider these risks and uncertainties when you are evaluating us. With respect to our capital allocation policy, distributions to shareholders in the form of either dividends or share buybacks are subject to the Board of Directors' assessment of factors such as business development, growth strategy, current leverage and financing needs. There can be no assurance that a dividend or buyback program will be declared or continued.

NOBLE CORPORATION plc AND SUBSIDIARIES NON-GAAP MEASURES AND RECONCILIATION

Certain non-GAAP measures and corresponding reconciliations to GAAP financial measures for the Company have been provided for meaningful comparisons between current results and prior operating periods. Generally, a non-GAAP financial measure is a numerical measure of a company's performance, financial position, or cash flows that excludes or includes amounts that are not normally included or excluded in the most directly comparable measure calculated and presented in accordance with generally accepted accounting principles.

The Company defines "Adjusted EBITDA" as net income (loss) adjusted for interest expense, net of amounts capitalized; interest income and other, net; income tax benefit (provision); and depreciation and amortization expense, as well as, if applicable, gain (loss) on extinguishment of debt, net; losses on economic impairments; amortization of intangible assets and contract liabilities, net; restructuring and similar charges; costs related to mergers and integrations; and certain other infrequent operational events. We believe that

29.04.2025 Seite 8/13

the Adjusted EBITDA measure provides greater transparency of our core operating performance. We prepare Adjusted Net Income (Loss) by eliminating from Net Income (Loss) the impact of a number of non-recurring items we do not consider indicative of our on-going performance. We prepare Adjusted Diluted Earnings (Loss) per Share by eliminating from Diluted Earnings per Share the impact of a number of non-recurring items we do not consider indicative of our on-going performance. Similar to Adjusted EBITDA, we believe these measures help identify underlying trends that could otherwise be masked by the effect of the non-recurring items we exclude in the measure.

The Company also discloses free cash flow as a non-GAAP liquidity measure. Free cash flow is calculated as Net cash provided by (used in) operating activities less cash paid for capital expenditures. We believe Free Cash Flow is useful to investors because it measures our ability to generate or use cash. Once business needs and obligations are met, this cash can be used to reinvest in the company for future growth or to return to shareholders through dividend payments or share repurchases. We may have certain obligations such as non-discretionary debt service that are not deducted from the measure. Such business needs, obligations, and other non-discretionary expenditures that are not deducted from Free Cash Flow would reduce cash available for other uses including return of capital.

We believe that these non-GAAP financial measures provide useful information about our financial performance, enhance the overall understanding of our past performance and future prospects, and allow for greater transparency with respect to key metrics used by our management team for financial and operational decision-making. We are presenting these non-GAAP financial measures to assist investors in seeing our financial performance through the eyes of management, and because we believe that these measures provide an additional tool for investors to use in comparing our core financial performance over multiple periods with other companies in our industry.

These non-GAAP adjusted measures should be considered in addition to, and not as a substitute for, or superior to, contract drilling revenue, contract drilling costs, contract drilling margin, average daily revenue, operating income, cash flows from operations, or other measures of financial performance prepared in accordance with GAAP. Please see the following non-GAAP Financial Measures and Reconciliations for a complete description of the adjustments.
